Website	www.ctasd.org

Goal of Plan
The Conemaugh Township Area SD has chosen Option 2, Enrichment and Review to provide our Continuity of Education during the State mandated school building closures.

Overview of Plan
The overall plan is to have teachers provide enrichment and review through teacher developed activities. These activities will involve printed packets of activities and indirect/electronic interaction between the teachers, students and parents.

Expectations for Teaching and Learning
Each teacher will develop 2-3 weekly activities per subject area for each student.

Communication Tools and Strategies
The primary form of communication for students, parents and teachers will be teacher email, google classroom and teacher web pages. In addition, packets of information will be developed for elementary aged students and mailed to individual homes.

Access (Devices, Platforms, Handouts)
The primary access for students will be teacher email, google classroom and teacher web pages. In addition, packets of information will be developed for elementary aged students and mailed to individual homes.

Staff General Expectations
Our expectations for staff is to develop activities that will provide review and enrichment of previously instructed standards and topics as of the closure date of March 13, 2020.

Student Expectations
Our goal for students would be no more than 2-3 hours of educational activities on a daily basis.

Attendance / Accountability
Student accountability will be determined through completed activities and assignments.

Good Faith Efforts for Access and Equity for All Students
The CTASD will make every effort possible to ensure access and equity for all of our students. Parents will receive information from the building level administrators explaining our continuity of education plan as well as securing access to materials when electronic means are not available.

Special Education Supports
The CTASD will make a good faith effort to provide FAPE during the closure. Jane Jugan, our special education coordinator will be providing information to students, parents and staff members as it relates to a student's IEP. We will also be partnering with Appalachia Intermediate Unit #8 to provide related services that are feasible during the closure.

EL Supports
The CTASD does not have any ELL students, however, we would use our certified ESL teachers and partner with the Appalachia IU #8 to provide services if needed.

Gifted Education
See special education supports.
