Members can save time, money and improve their health

- ▶ **Save time** — Members can use their computer or smartphone to order prescriptions from the OptumRx™ Mail Service Pharmacy. By ordering online, members make fewer trips to the pharmacy and avoid waiting in line to pick up prescriptions.
- ▶ **Save money** — Many members can lower their cost by ordering online and taking advantage of our Mail Service Pharmacy. Depending on their pharmacy benefit, members can order a 3-month supply of their medication. Orders are shipped via U.S standard mail at no cost.

1. The online capabilities outlined here will not be available to members until their migration to OptumRx is complete.

My medication reminders **NEW!**

Members can sign up to receive text message reminders so they won't forget to take or fill their medications. Text reminders have been shown to improve medication adherence in members taking long-term or maintenance medications.¹ This helps them stay healthier - which may reduce future medical costs. That's important because the New England Journal of Medicine reports that nearly 70 percent of medication-related hospital admissions in the U.S. are due to poor medication adherence, costing an estimated \$100 billion per year.²

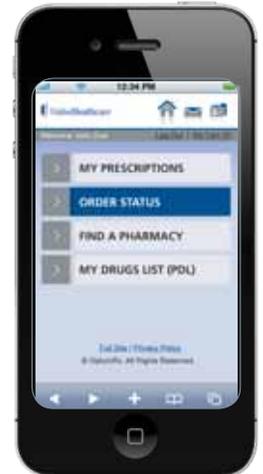

For members on the go **NEW!**
