

Nationally, 89 percent of low-income first-generation students leave college within six years without a degree. This astonishing percentage can be easily reduced if these students are given the tools they need to succeed. Our mission at TheBestSchools.org is to assist learners through every step of their education and foster lifelong learning.

Our team wanted to simplify the college admissions process and created a series of guides to aid students. **Our guides dive deep into steps to take during the application process, university requirements and how to finance a college education.**
