Middle School Quiz Programs

Giving and taking a quiz is not usually considered fun but with quiz programs used at the Middle School students actually have a good time taking quizzes. Here are three different programs used at the Middle School to assess student learning.

learn essential facts through simple interactive quiz games. The Quiz Hub includes hundreds of carefully designed matching quizzes focused on vocabulary, spelling, math, geography, history, and science facts. Hub includes hundreds of carefully designed matching quizzes focused on vocabulary, spelling, math, geography, history, and science facts. <http://quizhub.com/quiz/quizhub.cfm>

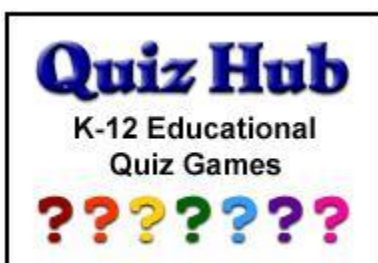

Qwizdom is a student response system that instructors can use to create a rapid learning environment using interactive hardware, often known as remotes, clickers, and student response systems.

Kahoot! is a tool for using technology to administer quizzes, discussions or surveys. It is a game based

All student response solutions are used in conjunction with Qwizdom's Actionpoint software, providing instructors with instant feedback, automatic grading, and reporting in a variety of formats. This saves time and makes it easier to track collective and individual student progress and performance data instantly or for long-term assessment. <http://qwizdom.com/us/education>

classroom response system played by the whole class in real time. Multiple-choice questions are projected on the screen. Students answer the questions with their smartphone, tablet or computer. Aside from being a great way to engage and focus a whole room of people, quizzes can be used to formatively assess the knowledge of each individual in the room, and adapt their learning accordingly. They can be used to track progress of individuals over time, and inspire learners to enquire further by creating their own quizzes.

Quiz Hub The purpose of the Quiz Hub is to help K-12 students
