Coronavirus (COVID-19) Communication #7

March 19, 2020

Dear Upland Unified Families and Staff:

To protect the health of students and staff members, and to slow the spread of the coronavirus (COVID-19), the San Bernardino County Department of Public Health, along with the San Bernardino County Superintendent's Office, supports the Upland Unified School District and all districts throughout our County to extend all school closures through Friday, May 1, 2020. This amended date will be evaluated at that time in hopes that a safe return is possible.

I would like to thank all of you for your ongoing patience and support as we navigate these difficult times. The highly evolving nature of the COVID-19 pandemic is creating new challenges, daily if not hourly, and our entire team at the Upland Unified School District is working diligently to ensure that every student receives appropriate instruction and support while our campuses are closed.

It's impossible to accurately predict how long the health crisis will last or when normalcy will return. In the meantime, we will continue providing independent work instruction through the duration of this period. Google Chromebooks have been distributed to students who need them. If you need more information on using Chromebooks and/or logging into student Google accounts, please go to the [Family Resources for Learning tab](#) on the District's website. For families without internet access, Charter Communications is providing free Spectrum Internet service for the next 60 days. To enroll in Charter's free service, call (844) 488-8395.

We understand and are deeply sorry for the disruption school closures has had on our families, and I want to assure you that we will continue to do everything within our power to ensure that your children's academic progress will not be sidetracked by any of this.

Together, we will endure and come out stronger.

Thank you, again, for your patience and support. We will continue to provide updates as additional information becomes available. In the meantime, please visit our [website](#) or your child's school website.

We will continue to monitor information as it is made available by the San Bernardino County Office of Education, San Bernardino County Department of Public Health, the California Department of Education, and the Centers for Disease Control and Prevention.

We will also keep you updated via emails and the District website. For additional information, you can also access the following websites:
