

Question:

I scanned through the RFP but wasn't able to find any elaboration on what the pre-existing MS and Google products being used were. Are you able to expand on what exactly you guys are looking for?

Answer:

Pre-existing Microsoft - Office 365 Business online which includes Outlook, Word, Excel, PowerPoint, OneNote (plus Access and Publisher for PC only)

Google G-Suite: Gmail, Calendar, Currents, Hangouts, Drive, Docs, Sheets, Slides, Sites, Jamboard, App Maker and Vault. **G Suite** is a set of cloud computing, productivity and collaboration tools, software and **products** developed by **Google**.

Key Functional and Additional Areas:

Application Integration

Application Development

Data Analytics
