

NOTICE OF POSTPONEMENTS

The health and safety of our students, staff, and their families is always our highest priority and determines how we make decisions.

With the guidance of our Governing Board, Leadership Teams, Centers for Disease Control and Prevention and the Maricopa County Department of Public Health, the Littleton Elementary School District has made the decision to postpone the 6th grade Outdoor Education and 7th Grade Marine Institute Field Trips until the 2021-22 School Year.

We understand many students were looking forward to these trips, and we are looking at ways for students to still participate in them in future years.

As of this moment, the 8th Grade Washington D.C. Trip is not postponed.
