STEM Showcase

Our Science Leadership Team recently completed two days of professional development with NAU 's Center for Science and Learning. During the training we worked on our year long plan to revitalize our STEM implementation. We are excited to build our new STEM vision for learning and share it with our community in the months ahead.

Kids at Hope Engineers

We are all capable of success- no expectations! This could not be more true for our new kindergarten students this year! Our kindergarteners and learning their letters and sounds, numbers, counting, singing songs and making new friends in their virtual classroom. We are so proud of our baby Hawks and how all they are doing in distance learning. Special thanks to our amazing Kindergarten teachers- Ms. Harned, Ms. Sauer and Ms. Montano.

Technology Tip

Did you know that you can be added to your child's Google Classroom ? Simply send your child's teacher an email requesting access and they will add you as a guardian. You will then have the ability to monitor your child's work. Please let us know if you need any additional support. We have received additional laptops to distribute so please be on the lookout for more information coming out soon!

Student Agency Tip

Have you talked to your child about their recent assessment results? Ask them how they did and what they want to work on,. One of the best life skills we can instill in our children is the ability to persevere in challenges with determination and grit. Set a goal with your child on what they will would like to accomplish on our next round of testing.

MYD Tip

Make Your Day is a school wide citizenship program that we have had in place in 6 Littleton schools since 2006. Even though we are temporarily moving to an online teaching model, we will still use parts of MYD such as setting expectations and asking students to reflect on their efforts.

Safety Tip

For the safety of staff members currently working at school, the front office is closed to visitors. If you have questions or need assistance, please call 623-478-6101.

Social Emotional Learning Tip

During this challenging time, it is important to take time for mindful moments to reduce stress and anxiety. Check out Cosmic Kids Yoga.com for some great yoga classes based on litera-

"Every kid is ONE caring adult away from being a success story!"
