

Principals Message

As we move into the month of November, I want to take this opportunity to pause, reflect, and share my genuine gratitude for our Tres Rios community. Thank you for your unwavering support and partnership through the start of this unique school year. We are truly fortunate to have stakeholders who are committed to our students' success. I can never say this enough, we appreciate all that you do!

Mr. Rickert

Signature School Program

This quarter we have begun learning about Emergency Medical Technicians. Our Kinder through 2nd graders are learning about what an EMT is and what how they provide medical attention in emergency situations. They have been able to see what is inside an ambulance and a firefighter helicopter where paramedics also work. The 3rd through 5th grade students are discussing how firefighters and EMTs work together during each emergency. Sixth through 8th grade students are learning about the 3 levels of Emergency Medical Technicians and the different trainings that they complete to move up within each position.

Technology

98% of Tres Rios students are 1:1 with LESD laptops. We are truly lucky to have the capability to put technology in the hands of all our students. This couldn't be done without the support of our Puma families and community.

Student Agency

As you can see from our calendar of upcoming events, November is the time assessments begin to ramp up. Mid-year is an important checkpoint to assess and reflect on the academic goals that were set at the beginning of the year to perhaps recalibrate or stretch these initial goals.

MYD

There was much excitement as Tres Rios opened its doors for the hybrid model students. During this time, teachers were able to re-engage students in Make Your Day and its philosophy of student locus of control leading to student success. We want to thank all of the Puma families for supporting their child in making their day and making the best of these unique times.

Safety

Students have done an outstanding job helping maintain safety during school hours.

All students are practicing physical distancing and wearing masks to help safeguard others and themselves.

Social Emotional Learning

The five core competencies of SEL are self-awareness, self-management, social awareness, relationship skills and responsible decision-making.

This month we will be looking closer at social awareness.

Social awareness is the ability to understand the perspectives of and empathize with others, including those from diverse backgrounds, cultures, and contexts. [Link](#)

Every kid is one caring adult away from being a success story. –Josh Shipp
