Union Colony Schools  
2000 Clubhouse Drive  
Greeley, Co. 80634

Dear Staff and Parents:

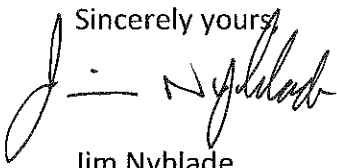

As required by the Asbestos Hazard Emergency Response Act (AHERA) Union Colony Schools has developed this notification and conducted an extensive asbestos survey of all school buildings. Based on the findings of these inspections, a comprehensive management plan has been developed for each of Union Colony schools buildings.

This management plan identifies locations and types of asbestos-containing building materials in the building and details the schools ongoing efforts to maintain or remove those materials. The plan is continually updated with documentation of asbestos related work performed in the school buildings. You may review the management plan in each of the schools administrative offices.

This letter serves as notification of any asbestos related efforts which may be performed by the maintenance department at any time such as periodic surveillances, 3-year reinspection, operations and maintenance and asbestos removal.

The safety of students, staff and patrons in the Union Colony School buildings is the number one priority of the Facilities Department. Our procedures for dealing with asbestos reflect that priority. I will gladly answer questions about asbestos in our buildings and can be reached at (970) 673-4997

Sincerely yours,

A handwritten signature in black ink that reads "Jim Nyblade". The signature is written in a cursive style with a large initial "J".

Jim Nyblade

Facilities Manager
