Unemployment Insurance

The Unemployment Insurance Benefit Program is a nationwide program created to provide a temporary source of income for workers who have lost their jobs through no fault of their own, while they conduct an active search for work.

Unemployment insurance benefits may be available to individuals who are involuntarily unemployed as a result of COVID-19. The amount of the benefit will vary based upon the amount of money that the individual has previously earned, but will be between \$187 and \$240 per week.

State and federal legislation expands Unemployment Insurance and eligibility amid the COVID-19 pandemic. Learn more about what this means for you by reviewing the resources listed below.
