

Robles Elementary Applying for New 21st CCLC Grant

The Robles Elementary School 21st Century grant, which funds our afterschool program and the elementary portion of our Discovery STEM Camp, ends after this school year. The good news is that Robles will be applying for a new grant to continue providing tutoring and enrichment classes and our summer program. We are currently writing the application and seeking additional partners. If we receive the grant again the program will be funded for another 5 years.

All of our teachers and support staff who have worked hard to provide homework help, tutoring, and fun, educational enrichments for our students deserve a huge thank you. They gave the time and effort to make our program successful. We are also very thankful for the support of all our parents and families.

We will let everyone know as soon as we find out if we receive this highly competitive grant again.
