

The Gettysburg Area School District is seeking a highly motivated Director of Facilities and Safety and Security to provide administration and direction of services related to custodial, maintenance, and grounds operations for the physical plant of the District. Coordinate activities with all building administrators to ensure a high-quality program that strongly supports the educational mission of the District. Promote positive public relations through a variety of methods, and implement those initiatives through the custodial, maintenance and grounds staff. Maintain current and appropriate knowledge of various building systems, environmental and other legal compliance matters, construction and maintenance methods, and appropriate facility-related software systems. District-wide coordination of safety and security activities, including leading the Safety and Security Committee.

A Bachelor's Degree is preferred with facility management, personnel management, or related field experience. A minimum of ten years demonstrated experience in facilities management. Other qualifications may be appropriate and acceptable.

Additional information and a Job Description may be found on the Gettysburg Area School District website at www.gettysburg.k12.pa.us. Please apply online through Applicant Tracking.
