

The USDA announced on August 31, 2020, that schools have the choice to serve meals under the Summer Food Service extended waiver. This will continue through December 31, 2020.

This waiver allows **ALL** enrolled Dubois students to eat **FREE**. Our Classroom Based Virtual Education students and Kinder-Boost included.

This waiver is expected to support access to nutritious meals, while supporting the need of additional support and flexibility related to COVID-19.

Helping everyone!

No action is needed from parents/guardians. Your child will receive breakfast and lunch for free, until Christmas break. Once we return, previous payment status resumes.

**Please note:**

1. Your child will continue to be charged for **additional** milk and a la carte items as usual.
2. Continue to maintain a positive meal account balance to cover your child's extra purchases.
3. If you currently receive free or reduced school meals, remember to fill out the 2020-2021 free/reduced application. This will need to be completed prior to October 12, 2020. Your account will be charged full price for school meals on January 4, 2021 if you fail to do so.

Please contact me with any questions that you may have.
