

# **Coronavirus Information from the Center for Disease Control (CDC) and The Pennsylvania Department of Health (DOH)**

Lake-Lehman School District is taking all precautions recommended by the CDC and the DOH with respect to cleaning, disinfecting and sanitizing our school facilities, as well as the district's transportation vehicles. Although the number of confirmed cases at present is low in the United States, taking all precautions at both school and home are recommended.

There are simple everyday preventive actions to help prevent the spread of respiratory viruses. These include

- **Avoid close contact with people who are sick.**
- **Avoid touching your eyes, nose, and mouth with unwashed hands.**
- **Wash your hands often with soap and water for at least 20 seconds. Use an alcohol-based hand sanitizer that contains at least 60% alcohol if soap and water are not available.**
