6. **Since they were last at school, has your child been diagnosed with COVID-19?**

YES If a child is diagnosed with COVID -19 based on a test, their symptoms, or does not get a COVID-19 test but has had symptoms, they should **NOT** be at school and should stay at home until they meet the criteria below.

NO

A child can return to school when a family member can incur that they can answer **YES** to **ALL** three questions:

- Has it been at least 10 days since the child first has symptoms? Has it been at least 3 days since the child has a fever (without meds) Has it been at least 3 days since the child's symptoms have improved- including cough and shortness of breath

*** If a child has had a negative COVID-19 test, they can return to school once there is no fever without the use of fever-reducing medicines and they have felt well for 24 hours**

**** If a child has been diagnosed with COVID-19 but does not have symptoms, they should remain out of school until 10 days have passed since the date of their first positive COVID-19 diagnostic test, assuming they have not subsequently developed symptoms since their positive test.**

*****If a child has been determined to have been in close contact with someone diagnosed with COVID-19, they should remain out of school for 14 days since the last known contact, unless they test positive. In which case, criteria above would apply. They must complete the full 14 days of quarantine even if they test negative.**
