Opening your Powerschool account:

1. Login into <https://classroom.powerschool.com/> This must be done on a computer or tablet, a phone will not work.

Once you are logged in: (Note: Class selection will take approximately 15-20 minutes) If you get logged out you will need to log back in and restart.

1. Under the navigation bar on the right, select the QuickLinks tab and then Class Registration tab. On the registration screen. There are several sections that will need your attention.
2. Each subject has a pencil icon on the right hand side. This is where you will see the courses to select from.

(Each subject has a selection message - please read the message for specific directions in each area).

(Please note for incoming 9th graders the core subjects have been chosen for you. If you are an advanced student the counselors will place you in those courses separately based on your teacher recommendation).

4. There should now be a green check mark indicating that the selection has been made.
5. Complete each section - noting the messages with directions for each.

8. Your courses are now selected - Good Job!!
