EVALUATION OF SUPPORT SERVICES

The Board of Trustees believes that support service departments provide vital and necessary services to the effective and efficient functioning of the instructional program. In an effort to gain input and feedback related to the effectiveness of personnel providing support services, the administration will conduct an annual assessment of support staff. If an annual assessment of support service staff is utilized, nothing therein shall be construed as altering the at-will status of support service personnel.

Adopted: 1/20/98
