

**PARK COUNTY SCHOOL DISTRICT #6
BOARD OF EDUCATION POLICY**

1st Reading – Regulation CKA-R2

Code: CKA-R2

PERMITTED FIREARMS/HOLSTERS FOR SCHOOL CONCEALED CARRY

Firearms, equipment, and ammunition requirements for Park County School District No. 6 regulations:

Firearms: The applicant must present a handgun meeting the following requirements for inspection and review by trainers and/or law enforcement advisers identified by the Board of Trustees; use it in initial and annual refresher training events; and carry this firearm only, upon approval of the application. The make and model of firearm approved for use will be documented in the individual's application packet (*CKA-R1 - Application to Carry Firearm on School Property*) and certificate of training completion.

1.
 - a. Semiautomatic pistol: Calibers 9mm, .40 S&W, or .45 acp only. Single-action pistols designed for Condition 1 carry with external safety are not acceptable. Double/single action, double-action only and striker-fired designs are acceptable. Double action revolvers chambered in .38 Special or .357 Magnum.
 - b. Manufactured by Beretta, Colt, Glock, Smith & Wesson, Sig Sauer, or Springfield Armory (other proven designs or revolvers from reputable manufacturers may be considered on a case by case basis by Park County School District No. 6 law enforcement advisers and trainers).
 - c. Minimum magazine capacity 6 rounds. Must be carried with at least one other fully loaded, accessible spare magazine. Revolvers would be carried with at least two speed-loaders.
 - d. Shall be concealable under everyday work clothing when holstered on the person; this will be demonstrated during initial training to the satisfaction of trainers and Park County School District No. 6 law enforcement advisers.
 - e. Shall not be modified from original factory specifications except for replacement of sights or grips.
2. Holster: The applicant must present a holster meeting the following requirements for inspection and review by Park County School District No. 6 approved trainers and/or law enforcement advisers, use it in initial and annual refresher training events, and carry this holster only, upon approval of the application.
 - a. Retention: The holster must provide security (retention) of the selected handgun, by means of a tensioning device, molded closure, tab, or strap. The holster may be tested by holding the holstered, fully loaded firearm inverted and shaking it vigorously; the firearm must not fall free.
 - b. Safety: The holster must completely cover the trigger guard of the firearm. Designs with push button releases in the vicinity of the trigger guard are not acceptable.
 - c. Concealability: The holstered firearm must satisfy the requirements of "deep concealment", i.e. when concealed by everyday work clothing such as jacket, vest, or sweater, it must not "print" on the outer garment or otherwise be identifiable as a firearm to a casual observer.
 - d. Accessibility: The firearm must be reasonably accessible. Rapid draw and presentation is a secondary priority to those listed in a-c above, due to the circumstances of concealed carry and possible use in the schools. NOTE: For timed courses of fire in the WY LEA Qualification Course, an alternative duty-type belt holster may be utilized. All other training will utilize the holster intended and approved for everyday use.
3. If an applicant approved for concealed carry in Park County School District No. 6 desires to change either firearm or holster, applicant must first present the new item(s) for inspection and approval by trainers and/or law enforcement advisers identified by the Board of Trustees.
