TERMINATION OF EXTRA SERVICE/DUTIES: CERTIFIED

Extra services or duties performed by certified personnel may be terminated by the Board together with a corresponding termination of pay for such services or duties.

Termination of extra services or duties is to be determined at the discretion of the Board of Trustees and such extra services or duties may be terminated at any time. A termination after such extra services have started and prior to their completion will require that the employee be paid a pro rata portion of the pay he/she was to receive for the extra services based upon the number of days worked compared to the total number of days the services were anticipated to be provided.
