USER AGREEMENT AND PARENTAL PERMISSION FORM

STUDENT USER AGREEMENT

As a technology/computer network user of the Park County School District No. 6, I hereby agree to comply with School District policy IJNDA and the rules set forth therein pertaining to communication over the Internet. I agree only to use the Internet for legitimate educational purposes.

I consent to allow school district personnel, including teachers, aides and administrators, to access and review any computer files, e-mail transmissions, and other computer data and/or information received by or sent by me in order to ensure that the school district computers are being used for appropriate educational purposes.

PARENT/LEGAL GUARDIAN AGREEMENT

As the parent or legal guardian of the student signing above, I grant permission for my student to access the network for computer services, such as electronic mail and the Internet. I understand that individuals and families may be held liable for violations. I understand that some materials on the Internet may contain items that are illegal, defamatory, inaccurate or potentially offensive to some people, and I accept responsibility for guidance of Internet use, including setting and conveying acceptable standards to my son or daughter to follow when selecting, sharing, or exploring information on this network. We do hereby release the School District, its Board of Trustees, staff, and agents, from any liability of any kind arising out of our son's or daughter's use and or misuse of the computer/Internet system at the school.

Students are not allowed to access or bypass district networks (filters) for any reason. Such action is considered hacking and is governed under Wyoming State Statute 6-3-504*. All attempts to bypass, program or interfere with networks will be referred to administration and the School Resource Officer.

We authorize school district personnel, including teachers, aides and administrators, to access and review any computer files, e-mail transmissions, and other computer data and/or information received by or sent from the student named above in order to ensure that the school district computers are being used appropriately and solely for educational purposes.

Parent(s) consent is required to allow district personnel to use Internet (Web site) operators to offer online programs for the benefit of students and the school system, for communication regarding homework, facilitating online testing and/or communication regarding grades.

The school requires that the service provider assure the school that it has in place a procedure or security system to maintain the confidentiality of any personal information that the service provider could have access to.

Because these services or programs will necessitate giving access to student personal information to the Internet or Web site operators that host or facilitate these programs, the school must represent that it has parental permission for this and your execution of this policy regulation shall be considered parental permission.
