CLASS RANKINGS/GRADE POINT AVERAGES

Because some colleges and organizations use class rank as a basis for admission and for awarding scholarships, class ranking shall be computed and made available to students in grades 9-12 and to their parents at the end of each trimester. Grade point averages shall also be computed at the end of each trimester for purposes of determining eligibility for school honor rolls.

For purposes of designation of student honors (valedictorian, etc.) and for college admission information, the end of the second trimester of the senior year will serve as the cut-off date for computation of class rank.
