BOARD OF EDUCATION POLICY**

STUDENT INSURANCE COVERAGE

Students participating in athletic activities are required to have medical insurance. Student group accident insurance is available at a nominal cost to the student. The school merely acts as a medium in supplying the insurance and assumes no liability, either for the injury or the subsequent negotiations with the company on a claim.

Students who participate in high school and junior high school athletics shall be covered by accident insurance through their enrollment in the school district's student group accident plan. The premium on the policy shall be paid by the student participants. The district does not assume liability for medical or other charges, fees or awards in excess of the insurance plan coverage.

The Board may waive the requirement for a student to enroll in the district's group plan provided the student's parent or guardian presents evidence satisfactory to the Board of private coverage for the student and athletic activity.
