3:55

18
Family Carnival

Welcome Back: Welcome Back to School to all of our wonderful students, parents, and families. The 2019-2020 school year is going to be educational, fun, and exciting!

For those of you that do not know me, my name is Venita Dennis. I am the principal of LJS Intermediate School. I am easy to reach at vdennis@wilmington.will.k12.il.us . Email is the quickest way to get in touch with me. I can also be reached at 815-926-1689. I look forward to seeing everyone again and to meeting the new families of LJS.

Please take time to read through the **student handbook** located in the student planner. You were asked during the registration process to sign a form stating you and your student(s) have read the handbook.

Positive behavior is stressed and rewarded at SIS. Students will be given chances to register for drawings held weekly and monthly.

Attendance: Student attendance is very, very important to Stevens Intermediate School. Please make sure your child is at school on time. At 18 days absent, the State of Illinois considers a child a chronic absentee. With 10 unexcused absences, your child is considered a chronic truant. **Stevens is graded by the state on attendance.** Please have your student at school unless they are vomiting or running a fever.

Studies show that students who are absent frequently are more likely to fail math and/or reading and more likely to drop out of school in middle school or high school. Students who are at school and on time score higher on assessments. Be at school!

Safety: The safety and security of our students is of the utmost importance to the SIS Staff.

Entering the building: When visitors come to SIS, the first (outer) door is unlocked. Proceed to the interior, and please ring the doorbell. You will be asked your name and business. Please clearly state both. Upon entering the building, proceed directly to the office to check in. You will surrender your government issued photo ID and will be issued a visitor's badge that must be worn at all times while you are in the building.

Visitors without a badge will not be allowed. Visitors that do not stop in the office will be asked to leave the building immediately.

Car Riders: Car riders may be picked up in two ways.

1. Get in the car rider line and remain in one single line. Please do not pull out of line unless your student is loaded. The first four cars will load at the Northeast corner and leave as normal.
2. Parents who wish to park in the parking lot are asked to meet their student(s) at the crosswalk at the Northeast corner of Stevens. Teachers and teacher aides will be on hand to help students and parents.

Parent Teacher Conferences: Please sign up for Parent/Teacher Conferences with your child's teacher. Conferences will be held on November 7th from 4:00-8:00 p.m. and Friday, November 8th from 9:00 a.m. to 12:00 p.m.

.....
WE-PTO: Please join us at our first W.E.-P.T.O. meeting this school year. It will be Tuesday, September 3rd @ 4:00 P.M. in the Bruning School Library. We have a great PTO that funds many student activities: field trips, assemblies, rewards, etc.

.....
Room Parents/Party Volunteers: All parents interested in being a Room Parent should contact their child's teacher. Volunteers are always needed in the classroom and the lunchroom. Lunch volunteers are needed from 11:00-12:00 every day. If you would like to volunteer in the lunchroom, please let the office know.

.....
Early Dismissal: Students will be dismissed at 11:20 AM on Wednesday, September 11th. During the afternoon, teachers will be participating in a variety of important staff development activities. We have four additional staff development days scheduled for this school year. These dates include October 9, November 13, February 12, and April 8. Regular bus service will be provided on these days.

.....
Band: 5th grade students interested in band will be able to meet with a representative from Kidder Music to discuss instrument rental and purchasing on Monday, September 9th from 3:30-6:30 p.m.

.....
Homecoming is the week of Sept. 30th –Oct. 4th The parade will be on Friday, Oct. 4th. The WHS football game will be on Friday. Special Homecoming Activities will take place daily at LJ Stevens Intermediate School. A list of these activities will be sent home in the upcoming weeks

.....

WE-PTO Fall Fundraiser: Bruning, SIS, and WMS will be fundraising for PTO beginning in August. PTO is a great organization that does so much for our students. PTO provides incentives, assemblies, buses for field trips, and much more. Please support PTO by supporting the fundraiser and attending a PTO meeting. Meeting times and dates can be found on the Wilmington website.

Welcome: Welcome to our new staff at Stevens-

2nd grade Special Education Teacher: Mrs. Christy Galati
2nd grade Special Education Aide: Ms. Ellen McMaster
4th grade Teacher: Ms. Julie Seiler
5th grade Teacher: Ms. Holly Robbins
5th grade Special Education Teacher: Mrs. Jennifer Loveland
5th grade Special Education Aide: Mrs. Jenna Boersma
P.E. Teacher: Mr. Mike Fisher

News from 2nd grade:

In math, we will start out focusing on place value: hundreds, tens, and ones. Then we will move on to basic addition and subtraction math facts. Students are encouraged to practice math facts at home to help with mastery.

In reading, we will be focusing on the following skills and strategies throughout the first trimester:

- *Sequence of Events
- *Author's Word Choice
- *Inferring/Predicting
- *Comparing & Contrasting
- *Author's Purpose
- *Main Ideas & Details
- *Cause and Effect
- *Summarizing
- *Fact & Opinion

These skills and strategies will be practiced, in a variety of genres, within our reading series and through engaging instruction and activities within the classroom. Students are encouraged to read for at least 15 minutes each night to help with fluency and building reading stamina.

In science, our topics of study will include the following:

*Ecosystems: What Plants need, Animals Pollinate Flowers, Animals Spread Seeds

*Biology: Living Things Everywhere, Living Things on the Coast, Living Things in a Wetlands, Living Things in a Grasslands

In Social Studies, we are focusing on community. We discuss the holidays that we celebrate which include: Labor Day, Columbus Day, and Veteran's Day.

2nd Grade behavior Expectations include:

*Respect Others

*Respect Property

*Respect Yourself

*Be there, be ready

News from 3rd grade: Third grade students have started the year off very well!

+During our first trimester in math, students will learn multiplication and division strategies for numbers within 100.

+In writing, they will review and learn parts of speech, sentence structure, and write a narrative.

+Our reading unit kicks off with the topic of being a good citizen. Within this unit, students will review and learn summarizing, drawing conclusions, inferring, predicting, analyzing, evaluation, visualizing, and cause and effect, along with learning vocabulary terms and spelling skills.

+We will be studying forces and interactions in science.

+In social studies, students will learn map skills.

+In technology, students will utilize Google Classroom, IXL, typing, and use other various websites.

As you can see, we will be busy learning and growing! Please continue to work with your child on math facts and encourage them to free read at home!

News from 4th grade:

In the first trimester, students are reviewing concepts from third grade as well as introducing completely new skills as a 4th grader! In reading, students will review what story elements are, discussing the setting, characters, and plot of a story. In fictional stories, we will also discuss the genre and point of view. In nonfiction text, students will determine the main idea and details within a paragraph as well as summarize the most important parts within the entire story. Students will also have vocabulary strategies such as prefixes and suffixes that can help determine the meanings of words.

In the first trimester of math, students will review place value, but will read, write, round, add, and subtract six-digit numbers. Fourth graders then move onto multiplication. They will begin multiplying single digit numbers and then double digit numbers. Multiple strategies will be presented, and then students choose what method is best for them when solving multiplication problems. Students are expected to know all of their multiplication facts through twelve. Please practice these at home!

Finally, students will also be learning new concepts in social studies and science. In the first trimester of social studies, students will begin reviewing map skills and then begin studying the Northeast region of the United States. Besides learning about the importance of this region, students will be expected to know the capital and location of each Northeast state. In the first trimester of science, students will begin to explore what it means to be a scientist and then 'dig in' to their first topic of fossils. Fourth grade is going to be a great year!!

News from 5th grade:

Fifth grade is a very busy year for our students. We hold our students to high expectations in order to have each one of them prepared for middle school. Responsibility, respectfulness for our school, teachers, and classmates, as well as organizational skills are necessary to be successful this year.

Our reading textbook provides great stories from many different genres to learn and practice many skills. This trimester, our students will cover the reading skills and strategies of story structure, point of view, irony, theme, characterization, sequencing events, visualization, idioms, inferring, predicting, and formal & informal language. Our Reading Block is structured in a way that has students learning during whole group instruction, small groups, independent conferring, and independent reading. In addition, fifth grade will learn strategies to improve our writing skills including narrative writing and summarizing. We add in practice with grammar and conventions too.

Math for the first trimester will include place value and patterns, properties, powers of ten, volume, polygons, quadrilaterals, polyhedrons, and three dimensional figures. Mastery of multiplication facts is necessary at this point. Much of the midyear will cover fractions. Fact mastery makes learning fractions, equivalent fractions, simplifying fractions, etc. much easier. Please ask your student to practice at home using flash cards or apps available at home.

Social Studies curriculum begins with Early Americans, theories about how people first arrived in North America, and moves in Native Americans and regions. Our field trip to Isle a la Cache in October will build on what we are learning in a very hands-on way by explaining the Native Americans and fur traders that came to our area.

The first trimester of the year in science includes a large unit covering Physical Science with our biggest topic being the states and properties of matter.
