

Kings Lake Education Center

Cell Phone Policy 2017-18 Academic School Year

All students who attend Continuation and Mission Community Day School will have to put their cell phones into a safe box before entering class. The school administrator, Mr. Arriola will check in all students as they enter the campus and those students will place their cell phones into this safe box. Cell phones will no longer be allowed into the class. All phones will be returned to each student at the end of the day.

This new policy is to keep classroom distractions to a minimum and for the safety of students and staff.

1st offense: the phone will be taken away from the student and returned at the end of the day.

2nd offense: the phone will be taken away and a parent must pick up the phone.

3rd offense: a referral to another school for defiance and safety offense.

Those students who do not comply with this new school policy will not be allowed to attend Kings Lake Education Center. All students will have to sign the new cell phone contract and will be expected to follow this policy.

I agree to follow the Kings Lake Education cell phone policy.
