

High School Math teacher

Job Description:

Salary Beginning (BA/0) = \$38,000 and progresses from there per salary placement schedule
Experienced candidates may come in higher with up to 8 years' experience granted. Upon full-time work we provide a full benefits package including health, vision and dental coverage. Furthermore, we run on a four-day school week model and are a small rural school district which lends to small classroom size, manageable workloads and enhanced opportunities for our children to learn and grow. Seligman is a great place to live and work if you appreciate a rural environment, four distinct seasons, peace and quiet and the opportunity to teach in a progressive environment. We welcome you!

Other:

Dynamic, committed, and effective educator needed to teach high school (9-12) mathematics with energy and enthusiasm. Our class will be small (about 10 students). We welcome your application! You must hold high expectations for students and believe that Seligman students can fulfill their dreams of college and career. As a small, rural district, many educators teach in multiple content areas. What is your passion? Apply with us! Our teachers enjoy excellent academic and disciplinary support from the administration, teacher leaders, and colleagues through professional learning communities and professional development.
