

May 12, 2020

Parents & Guardians,

The Palominas School District welcomes you to register in our district for the upcoming 2020-21 school year. We have an online registration through ParentVue. This will help our offices streamline the registration process and eliminates the need to fill out multiple forms for each student.

New families to the district are classified as never having attended Palominas or Coronado in the past. Please create an account using a browser such as Google Chrome, Safari or Firefox at the following link: https://palominas.apsc.org/PXP2_OEN_Login.aspx You will need to go through every section and ensure that all the required information is entered.

You will have 10 business days from the date you complete the online registration to bring in your proof of residency and the original birth certificate to ensure your registration is complete. The school offices will process each registration and let you know if there are any issues.

Thank you for your help in registering for the 2020-21 school year.
