October 2020

Back at it Again

After a much needed Fall Break we are back at it again with making great meals. We are continuing to be flexible with changes that may come up. Our main priority is to deliver safe and healthy meals to your students. Our staff has been going through different training to be able to give your student the best meal experience.

Birthday Boxes

Even though Covid has forced us to make many changes, we are still able to do Birthday Boxes!!! We bring the party to the classroom with an extra gift for your child. Our Birthday boxes are a great way to celebrate safely in the classrooms. Birthday Boxes are priced at \$12.00 and can be purchased through the food service office at 520-366-6204 ext. 406.

NSLW 2020

We celebrated National School Lunch Week, October 5th-9th. This year's theme was "Now Playing: School Lunch!" We took this theme and based each of our lunch days on a different movie franchise as well as encouraging students to dress up with that theme. We were so happy with the amount of participation from both staff and students. You all really made this week lots of fun!!!

Lunch Applications

Lunch and Breakfast is currently free for all enrolled students. HOWEVER, this could change in January. Please turn in your Free and Reduced Lunch Application so that you can get your eligibility in before the change. These applications not only help the Food Service Department but are also used in other departments in our district. The price for breakfast will be \$1.00 or \$.30 reduced and lunch will be \$3.00 or \$.40 reduced.
