District Transformation

During the May 12th Board Meeting discussions will be held pertaining to the 2020-2021 District Transformation. The transformation of the District will be inclusive of the development of more PreK-8 programs as well as the movement of building administrators. This restructuring is part of a transformation process that is often done to avoid complacency and to prevent a sense of stagnation in both the principals and the teachers. As we look for ways to ensure significant gains that have not been seen over the past 4 – 5 years, these movements are being done to help leadership step out of their comfort zones, accept new challenges based on their strengths and become the driving force for school improvement.
