

## **Park County School District #1**

### Optional Learning Resources

Park County School District #1 is providing some *optional* activities for the upcoming school closure from March 23 to April 3. **Completion of these activities is totally voluntary, but we hope you will find these to be helpful in keeping your students moving forward academically.** Again, these are just suggestions for the upcoming two weeks. None of these activities are graded or recorded in the gradebook. We are providing resources and direction for students to experience while at home for this period. The *first* set of optional resources are free and are general in nature. The *second* set of optional resources are identified by our teachers in the district by grade level. We hope these optional resources will support the learning of your students during this time of uncertainty.

### **General Free Resources**

As parents prepare to spend time at home with their children for the foreseeable future, these digital tools can be great for kids and help the whole family to learn together:

[How to Excel in Online Learning](#) -- Many of us are experiencing online learning (and teaching) for the first time or are still relatively new to it. The home page of this site has a tip list for students who are new to the virtual/digital realm of at-home/online education.

[Khan Academy](#) – Perhaps the leader in free, high-quality, online learning content for kids, Khan Academy offers no-cost YouTube instructional videos in a wide range of content areas, including all levels of mathematics, English language arts, science, history, computer science and programming, and SAT preparation. Content is aligned with state curriculum standards, and parents can view and track their children’s progress. Khan Academy is widely used in schools across the country and can be a great resource for in-home learning.

[Prodigy Math](#) – Also used by many school districts, Prodigy is a free, online math program that uses a fun video game-style interface to engage learners. Users create their characters and conquer challenges while doing math along the way, tied to their skill level and aligned with core competencies. The paid version offers more math and allows parents and teachers (parents can register as teachers), to run tests and diagnostics, emphasize certain mathematical concepts, and assess progress behind the scenes, while the learners happily play the game.

[Duolingo](#) – If you or your child are interested in learning a foreign language, Duolingo offers free online learning tools in 36 languages.

[No Red Ink](#) – This free, online writing and grammar resource helps learners of all ages to practice and refine their writing skills. Sign up as a teacher (you can use your home as a school), create a learner profile for your child, and then allow your child to log in to the student account and get practicing.

[Mystery Science](#) – Mystery Science is offering free memberships for up to one year, with engaging lessons in a variety of science-related areas, including timely topics such as, “How do germs get inside your body?” Video lessons are complemented by hands-on experiments and downloadable activities.

[Codecademy](#) – This spring could be a great time for young people to learn in-demand skills like coding in different programming languages, web development, design, and data science. Codecademy offers free access to basic lessons, with the option to pay for more advanced courses if your kids get really into it.

[Marginal Revolution University \(MRU\)](#) – Economics isn’t always taught at the K-12 level, but the dynamic, self-paced introductory economics courses offered for free through MRU are likely to pique your older child’s interest. These are also great classes for you to learn alongside your child.

[Lynda.com](#) – Available for free through many public libraries, Lynda.com has an array of online learning resources in subject areas ranging from photography to business to web development. Check with your local library for access details, and while you’re at it, explore the many other digital resources your local library likely offers. Many public libraries provide free access to e-books, streaming films and music, digital magazines, and even language learning resources, such as [Mango](#).

[TED-Ed](#) – TED-Ed offers a free suite of high-quality videos on a variety of topics for learners of all ages, including supplemental materials, discussion questions, and opportunities to probe deeper into areas of interest. Register as an educator and you can help to customize your child’s learning experience, or let your child explore independently

[Smithsonian Institution](#) – Many museums, including the Smithsonian Institution and especially its open access [Learning Lab](#), offer free, online resources and activities for learners. Check out the websites of your favorite museums to see what free, digital education tools are available.

[Open Culture](#) – Access 1,500 free, online audio and video courses from top universities, as well as 1,000 free audio books.

[Edx](#) –Edx offers access to free online courses delivered by a consortium of leading colleges and universities. Learn college-level content in computer science, engineering, and robotics, among others. Similar to Edx, [Coursera](#) also provides a wide range of courses created by various colleges and universities, including many that are free.

[Academic Earth](#) – View hours of free lectures and course materials from leading universities.

[Alison](#): Offering a range of free online courses in all subjects, Alison’s trending course is [all about the coronavirus](#).

[NewsELA](#): Articles at all levels with questions to support reading skills

[Scholastic Learn At Home](#)- Free resources for school closures. Day by day projects to keep kids reading, thinking, and growing.

6th Grade - Literature 6th Grade - Composition	<p><b><u>6th Grade NON-DIGITAL LANGUAGE ARTS RESOURCES:</u></b>  <b><u>Here are some choices for OPTIONAL non-digital activities.</u></b></p> <ul style="list-style-type: none"> <li>• Create an "Oops!" collection. Look through magazines, newspapers, sale papers, food wrappers, etc. When you find a grammatical error, that is an "Oops!" Cut them out, and keep them together. You could put them into an "Oops!" book or simply keep them in an</li> </ul>	

"Oops!" folder or envelope.

- Look through magazines and newspapers for interesting pictures. Cut them out, and attach them to paper. Write your own creative captions. Be original and creative! You could make them into a booklet.
- Create a home library. Ask everyone in your house to share materials. Include whatever you can find - newspapers, magazines, story books, novels, instruction guides, etc. Categorize your materials just like you would find them in a library - fiction, nonfiction, periodicals (the fancy word for newspapers and magazines), etc. Now you will always have something to read!
- Read for thirty minutes a day; longer is always cool!
- Keep a journal of your experiences during the pandemic.
- Write a story. It could be long or short. Add illustrations.
- Write a poem. Think about all of the different forms - acrostic, narrative, haiku, shape/concrete, and more!
- Create a graphic novel.

**6th Grade DIGITAL LANGUAGE ARTS RESOURCES: Here are some choices for OPTIONAL digital activities.**

- IXL - For review and to keep your skills sharp, go back through the IXL lessons that we have completed this year. Challenge yourself to raise each of your scores by ten points. You can find all of these as well as your login information on Canvas.
- Pearson - Read in your Pearson online literature book. You can find your login information on Canvas if you don't remember it.
- [ereadingworksheets.com](http://ereadingworksheets.com) - This is a reading resource that covers the reading skills that we have learned this year in a variety of formats.
- [teachables.scholastic.com](http://teachables.scholastic.com) - This is an all-purpose site that covers reading, grammar, spelling, vocabulary, writing, and conventions. You can even practice math and social studies.
- [abcya.com](http://abcya.com) - There are lots of LA games choices on this site.
- Education World's "The Reading Machine: Reading Games" - This site has a list of games to sharpen your reading skills and more.

### **6<sup>th</sup> Grade FACS**

<https://www.teenlifetoday.com/>

Go to the 6<sup>th</sup> Grade section of the website. Choose Babysitting and Childcare. Read Caring for Children and complete any of the Activities.

Go to the 6<sup>th</sup> Grade section of the website. Choose The Importance of Family. Complete Who am I and/or Family Tree.

<https://quizlet.com/subject/cooking-utensils/>

Choose any of the Quizlets and begin learning the names of the cooking utensils we will discuss in class.

<https://quizlet.com/405817448/kitchen-safety-flash-cards/>

Use the Kitchen Safety flashcards to learn important kitchen safety principles.

7th Grade - Math	<p><b><u>Content Area Checklists</u></b></p>	<p>All checklists are available digitally on our classes' Canvas pages. All practices listed on the checklists are available embedded within the Canvas Modules. These practices are a great way to maintain the information covered this year!</p>
7th Grade - Literature	<p><b>Actively Learn:</b>  <a href="https://read.activelylearn.com/">https://read.activelylearn.com/</a>  Students all have accounts and are very familiar with this platform</p> <p><b>Quizzizz:</b>  <a href="https://quizzizz.com">https://quizzizz.com</a>  Most students have used this site before. If not, make an account. Links to join classes will be posted in Canvas for those who have not used this before.</p> <p><b>Scribd</b>  <a href="https://www.scribd.com/readfree">https://www.scribd.com/readfree</a>  Click the "Redeem your free 30 days" button</p> <p><i>It's always beneficial to kick your feet up and just read. :)</i></p> <p><b>Any past assignments you want to (re)submit to improve your grade are welcome.</b></p>	<p><b>Actively Learn:</b>  Some new texts have been opened up that I think are really awesome. Choose 2-3 that interest you. I highly recommend the article "Student Guide: 9 tips for working from home". Feel free to browse the independent reading catalog, too.</p> <p><b>Quizzizz:</b>  This is a great site for checking your knowledge on an array of subjects. I've posted a few spelling/grammar &amp; figurative language quizzes you can try out.</p> <p><b>Scribd</b>  This website has over a million ebooks and audio books available for use. They are currently offering a free 30 day trial no credit card required. This is a great way to access independent reading books at home while they may not be able to get books from school &amp; public libraries.</p>

<p>7th Grade - Composition</p>	<p><a href="https://www.freetypinggame.net/">https://www.freetypinggame.net/</a> - We've talked about this, and there is no time like the present to learn how to type properly!</p> <p><a href="https://docs.google.com/presentation/d/1ZzSjqTV4KqyWRPBtwUCS80tbtKJLb0sE4G3goWskxU/edit?usp=sharing">https://docs.google.com/presentation/d/1ZzSjqTV4KqyWRPBtwUCS80tbtKJLb0sE4G3goWskxU/edit?usp=sharing</a> - This is a grammar challenge game. Give it a go with your family and see who is the grammar champion!</p> <p><b>Any past assignments that were set before break.</b></p>	<p>Any recovery work that you can get finished I will still grade. Just shoot me an email to let me know that you are ready for a re-do.</p>
