

Community RelationsStudent Production of Goods and Services

Students may produce services and materials for community organizations or groups with the goal of furthering such students' educational development. Production must be authorized by the building principal or superintendent. All school sponsored production must be supervised by assigned staff members. If desired by community organizations, payment for student production should be made to student or school groups and not directly students. Any exceptions must be approved by the administration.

Date of Adoption: January 11, 2010
