

PERSONNEL

Part Time Teachers

Part time teachers serving on a temporary basis shall be subject to the provision for substitute teachers.

Part time teachers such as homebound teachers, special education teachers, and supplementary instruction personnel who are employed at least on an annual basis, shall be treated as permanent personnel in applying the personnel policies and regulations of the school system. Permanent part time certified staff members will be entitled to the fringe benefits received by full time staff members. However, the fringe benefits will be prorated based on their percentage of employment. Each permanent part time certified staff member may purchase the additional portion of benefits not assumed by the district or not accept the fringe benefit package but in no case will these benefits be paid as additional salary.
