

Free virtual workshops for New Mexico Educators

Trauma's Influence and a Child's Potential

Dr. Kalbfleisch's workshop series is based on her upcoming book, **Teaching to Every Kid's Potential: Simple Neuroscience Lessons to Liberate Learners'** (W.W. Norton, Sept 2021). These workshops will follow the book's first three chapters that outline paradoxes about how our brains learn and highlight certain biases that keep us from recognizing learning potential in our children. Here, we will examine how trauma influences each of these fundamental elements for optimal learning with special attention to the impact that trauma has on executive functioning. Specific strategies will be shared to sharpen your eye and enrich your instructional toolbox. Expect to brainstorm, apply, and elaborate how each of these elements can inform your current practice.

How Trauma Influences Flexibility in Learning
September 15th | 3:30-5:30pm

How Trauma Influences Readiness in Learning
October 13th | 3:30-5:30pm

How Trauma Influences Connection in Learning
November 17th | 3:30-5:30pm
