Each Additional Member Add:	+5,434	+453	+227	+209	+105		Each Additional Member Add:	+7,733	+645	+323	+298	+149

Note:

If all income is received on the same schedule

Example: alimony = \$100-month & pension = \$300-month

DO NOT use conversion factors

If family reports income sources from more than one schedule

Example: alimony = \$100-month & pension = \$300-week

Income **MUST** be converted to yearly.

Yearly Income = Monthly	x 12
Yearly Income = Twice Per Month	x 24
Yearly Income = Every Two Weeks (Bi-Weekly)	x 26
Yearly Income = Week	x 52

DO NOT round the values resulting from each conversion
