JHCE-R-THROAT CULTURE POLICIES

1. Throat cultures are given Monday through Friday, each week except holidays.
2. If a student receives a positive throat culture, the student, parent, teacher, and administrators will be notified. The student may not attend school until 24 hours after treatment is started.
3. We will refer to a private physician for follow-up and/or treatment. We will notify parents of false positive, or negative results. It will be up to the physician to determine if re-culture is necessary.
