We're excited to share a NEW and FREE program offering through the Mohawk Trail Regional School District After Care Program! Join us on Thursdays and Fridays this Fall (starting Sept. 26) after school for hands-on music lessons: learn to drum and expand existing music skills!

The best part? NO experience or equipment is needed! We provide it all!

About the Program

Students are bused from their elementary schools to the MTRSD After Care Program located at Mohawk Trail Regional School. Snack, homework help, and free time are offered in the After Care room (Room 170 in the middle school wing) before music instruction (held 4:30 PM - 5:30 PM in the music room).

Sign-up for both class days or just one! This program offers fun and flexibility! The program is modeled after El Sistema, a national program with a focus on social justice and encouraging students to express themselves through music.

About the Instructor

Stephen Kerr is a Western Mass based musician and teacher, active for over 10 years. A graduate of the University of Massachusetts, Amherst, Kerr emphasizes the benefits of improvisation, movement, and play in music education. As a multi-instrumentalist, he is dedicated to sharing his knowledge of music as it applies to any instrument, as an extension of the individual behind it.

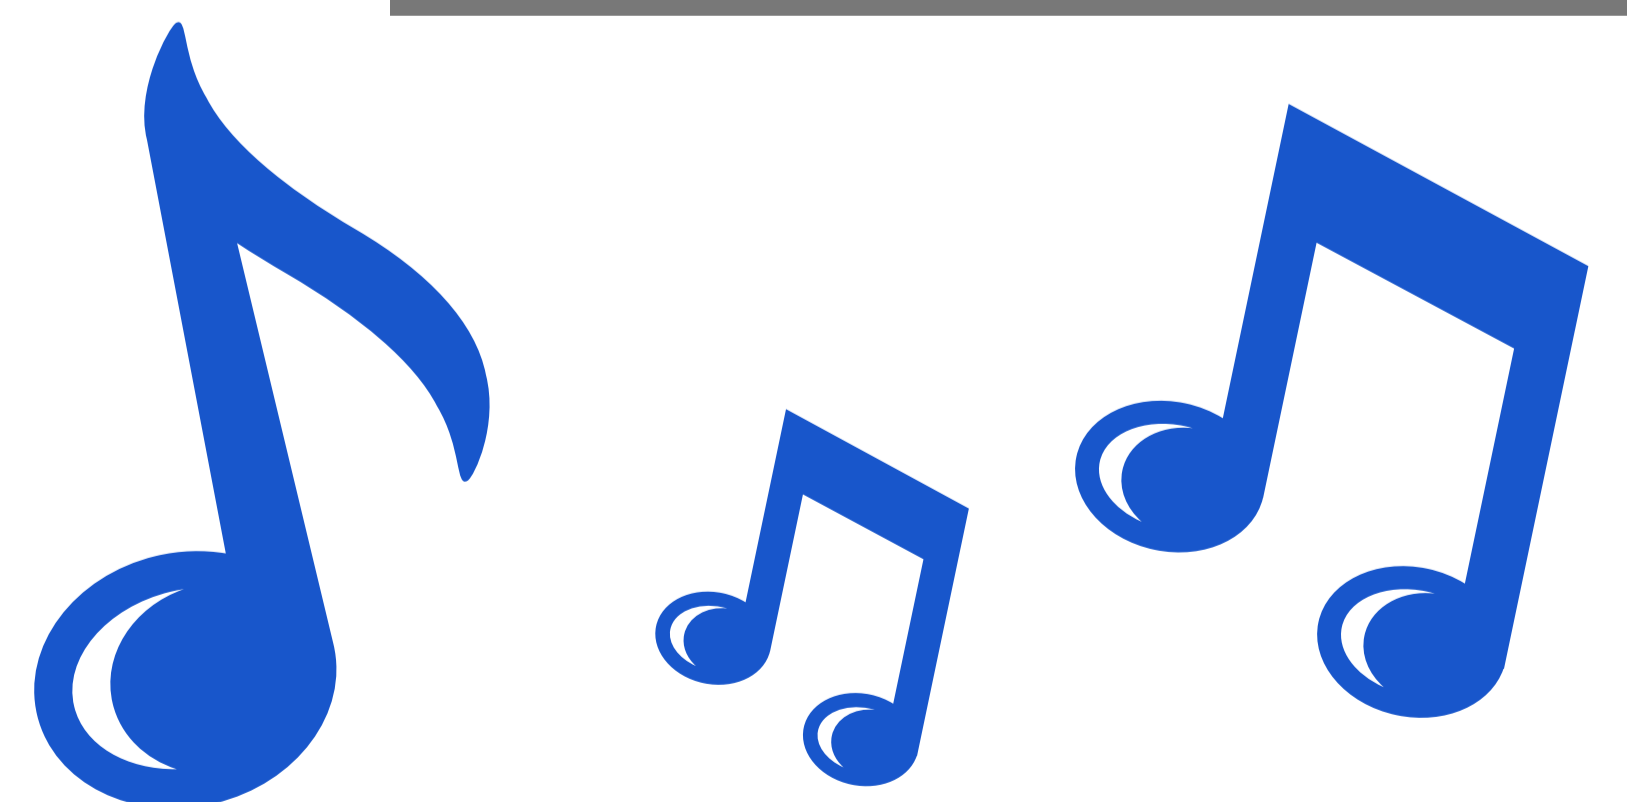

About MTRSD After Care

The MTRSD After Care Program serves children in the Mohawk Trail Regional School District, Grades 3-6, and provides them with safe, structured activities, and opportunities to connect and build friendships. Hiking and outdoor exploration are a focus in the MTRSD After Care Program.
