March 17, 2020

Dear Parents and Guardians:

As you know this is a unique time in the history of our community. North Delta School is committed to the health and safety of our students and staff while working diligently to make sure that our educational mission continues. To that end we are making plans to begin online programs to provide students with the necessary instruction to meet their educational goals. This plan is evolving hourly as new guidelines from the Centers for Disease Control, State and Federal officials and the President are presented to us. Please be patient with us as we work through this ever-changing scenario.

Our present plans are to start providing instruction online as soon as Monday, March 23rd. Further instructions about the specifics of this process will follow in the next couple of days. However, we are asking that if your child has materials at the school such as textbooks, computers, class materials, etc. that they will need to **please come to the school and pick them up on Thursday or Friday between the hours of 7:00 a.m. -8:30 a.m. or 11:30 a.m. – 1:00 p.m..** We will have most of their materials prepared for you to pick up at those times. Should you need to enter the building we will be limiting the number of people in your area to groups of 10. Computers will be available for students in grades 4 -8 to check out if you need a device to use at home. Materials for students in preschool through 3rd grade will be provided in hardcopy form if you do not have computer access. If you are unable to come at that time, contact the school and arrangements will be made. Students in the elementary school should plan to enter through the elementary front doors. Students in the middle school should enter through the main entrance and high school students should enter through the west end doors by the parking lot. Again, we ask for your continued patience as we try to mitigate these issues.

Please monitor your school emails, the Remind alerts, and the school's website (northdeltaschool.net) for details. We will attempt to keep you as informed as possible. We are well aware that there will be individual situations which we will have to consider. We are making every effort to anticipate some of these issues we may face, but as you can imagine there will always be contingencies that must be considered as they arise. If we can help in any way, please contact our office.

Thank you again for your patience and prayers as we do the best we can to provide a quality educational experience for your child.

Sincerely,

Randle O. Poss
Head of School
