Pride Club

We're dedicated to creating a Safe Space at Harrison!

What We Do

We focus on educating allies and LGBT+ members alike on various issues, including the different sexualities and genders, representation in media, and staying safe in unsafe situations. Members have the option for confidentiality and receive support and guidance in navigating communication about preferred names and pronouns. This is a safe space to report any concerns. We're a service club – let's give back to our community!
