

* PROGRESS CHECK (ADDING 1/2 VALUE) EXTENDED TO 5/01/20

(WATCH VIDEOS)

Drawing portrait

Assignment --- This weeks assignment is to complete 1/2 of the shading and then submit for a progress check grade.

This week you should be beginning to add value. I usually begin with the features, in particular the eyes, for they are the most important feature on the face.

The objective of a value drawing is to show form without having outlines or shading lines showing in the final drawing. Use a consistent light source.

- * You need a normal pencil with an eraser and a piece of paper.
- * Paper size no smaller than typing paper. (leave 1/4" for border)
- * Drawing paper is preferred, but you may use typing paper.
- * **Capture uniqueness & detail. Interesting pose.**
- * **Layer your values with overlapping pencil strokes so as not to create lines or gaps in your shading.**
- * **I suggest you begin with the features for they are most important. (When you are 1/2 completed adding value to show form to the project to show form.) SUBMIT FOR A PROGRESS CHECK GRADE**

These videos are educational and will help you with your drawing, but they also have ads where the content is unpredictable. I don't endorse any of those products, and I am asking you to close and/or skip the ads.

These videos will help with drawing proportions and angles. Watch them and then check your outlines
