

High School Choir- week 8-10 Final Project

You will select a song that speaks to you. You can select any song as long as:

- 1) The words are reasonably school appropriate (no excessive swearing or inappropriate themes).
- 2) You feel that you can comfortably sing the song!
- 3) You can make an engaging and fun to watch performance from that song!

You have three options for your FINAL PROJECT! Please choose 1!-

- 1) **Create a karaoke video-** For this one it **MUST** be YOU singing. You may have others sing along with you (family, people you have contact with right now). The focus on this one is the **SINGING!** But, I would also love to see more than you standing in place. Act out the song. Make it a fun performance. Here is a video link to some tips and tricks on making your very best karaoke video-

- 2) **Create a lip sync video-** You will not sing but only move your lips to the music. Make sure you know the words so you can look like you are singing! The focus on this one is **ACTING/PERFORMING!** Show off some sweet dance moves. Change up the background or put on a costume. Make it fun and interesting. Sometimes you will notice that these are best/ funniest when the voice doesn't sound like your own! Here are some links to some good examples:

- 3) **Create the Parody of a Song-** Take a song and change the lyrics. It could be about being stuck inside with your family, or distance learning, or anything related to our current situation with this pandemic. The focus here is **LYRICS/CREATIVITY**. So keep the melody of the song the same but change the lyrics. (For this one you have to write the lyrics and send them to me. You are welcome to be the person that performs this, but you can also perform it in a group or have someone else perform it.) Please make sure you create your OWN parody!!!!
