REGULATION

STUDENT WELLNESS

Physical Activity Goals

The primary goal for the District's physical activity component is to provide opportunities for every student to develop the knowledge and skills for specific physical activities, maintain physical fitness, regularly participate in physical activity, and understand the short- and long-term benefits of a physically active and healthy lifestyle.

A comprehensive physical activity program encompasses a variety of opportunities for students to be physically active, including physical education, recess, walk-to-school programs, after-school physical activity programs, health education that includes physical activity as a main component, and physical activity breaks within regular classrooms.

Physical education (high school graduation requirements): Students must, at the least, satisfy the state and District's physical education credit requirement.

Physical activity (time, frequency, and/or intensity): Schools will ensure that students are moderately to vigorously active at least fifty percent (50%) of the time while participating in physical education classes.

Physical activity outside of physical education: Schools may offer after-school intramural programs and/or physical activity clubs that meet the needs and interests of all students, including those who are not athletically involved or those with special health care needs.

Recess to promote physical activity: Grades kindergarten (K) through six (6) will have recess or physical education classes daily.

- Each student in a kindergarten program and grades one (1) through five (5) shall have at least thirty (30) minutes of recess consisting of structured physical activity each day.
 - The structured physical activity may take place outside or inside the classroom.
 - Physical education classes may satisfy the recess requirement.

- Unstructured recess time occurring immediately after lunch periods does not satisfy the recess requirement.

Walking or biking to school to promote physical activity: The District shall annually review safe routes for students who walk or bike to school.

Prohibition of use of punishment: The District will discourage the use of physical activity as punishment, the withholding of participation in physical education class as punishment, or the use of physical education class time to complete assignments from other classes.

After-school programs: The District shall encourage after-school programs to provide developmentally appropriate physical activity for participating children and reduce or eliminate the time spent in sedentary activities such as watching television or videos.

Community use: The District shall encourage community access to, and student and community use of, the school's physical activity facilities outside the normal school day.
