September 12, 2021

Dear Citizens of Apache County,

We are pleased to present to you the 2021-2022 Annual Budget. The Annual Budget outlines the programs and services provided by the County to the citizens of Apache County. Therefore, the annual budget is one of the most important decisions the Board of Supervisors make each year to determine the projects and services to be funded or unfunded, service levels provided to the citizens and the expenditure with providing those services.

Arizona Revised Statutes §11.705 and §42-17101 -§42-17110 charges the county board of supervisors with the responsibility of passing a balanced budget each fiscal year. For fiscal year 2021-2022 Apache County Board of Supervisors has adopted a balanced budget based on our vision to:

1. Create an environment where our residents are healthy, successful and our community is safe and vibrant.
2. Engage our citizens and communities.
3. Diverse learning organization.
4. Enhance the quality of life in our region.

Throughout this budget document our departments and districts have identified their goals and achievements to directly contribute to the success of our vision.

Guidelines for Budget Development

Apache County Board of Supervisors focuses on managing the uncertain economy of the nation and in the County. To provide direction and guidance to elected officials and department directors, the Board of Supervisors set guidelines:

1. Protect current employees.
2. No new employees unless individually approved by the Board.
3. Limited Departmental budget increases.
4. Limited capital expenditures for vehicles and equipment.

Maintaining the financial position of the general fund continued to be a critical aspect of the budget process. To this end, departmental budget increases were kept to a minimum. The Board has made use of the Federal Aid received to keep facilities sanitized and safe for employees. Costs associated with COVID-19 was one of the main factors in increasing budgets. Finally, expenditures for capital equipment and vehicles have been restricted.

Entity-wide Goals

As the County looks forward, we are hopeful in achieving our budget priorities through the 2022 legislative session.

Secure in statute the county share of lottery revenues to support mandated county operations. For more than 20 years, counties received a share of lottery revenues to help fund local services. The county distribution was eliminated in FY2011 during the financial crisis, removing \$7.65 million annually from local programs and services. Lawmakers restored the funding since FY 2014, and it is critical they understand it must continue going forward.

The County also urges to discontinue the practice of shifting local government's share of HURF to fund state agencies. Since FY2009, more than \$369 million has been diverted from municipal and county road building and maintenance resources to fund state government operations. Stopping this diversion going forward will restore more than \$10.8 million annually to county road maintenance statewide.

The County plans to meet with State Representatives to emphasize the importance of these priorities to the citizens of not only Apache County, but counties statewide. Addressing these items will have a meaningful impact on county services. We are hopeful that they will be addressed in the state budget.

Outlook for the County

As in previous years, we continue to look forward with optimism. Over the last several years the state has negatively impacted the County for millions of dollars. Yet we continue to work in collaboration with elected officials and the Legislature to find solutions. We compliment the Board of Supervisors for their vision and adherence to the fiscal conservative operation policy over the past several years.

Finally, in discussing the 2021-2022 budget, it is good to look at the County's major accomplishments during the past year:

- Implemented a cost-of-living adjustment for all employees
- Distributed Hazard Pay to all essential employees who worked during the COVID-19 pandemic
- Improved building security
- A four-person team of medical professionals was formed to cover Alternate Medical Examiner duties.
- Improved Fiber internet into the libraries and courts.
- Increased circulation of OverDrive by 26%.
- Probation fee collections increased by 13%.
- Progressed in the construction of the Lodge Teen Center in Round Valley. This provides a safe and productive place for teens to hang out, complete homework, learn, create, and play.
- Completed flood mitigation projects in low lying areas of the county.

- Several employees became drone certified to aid in Search and Rescue, severe weather, and road plans.
- Maintained school bus routes and improved those that were in dire need.
- The Court has begun to introduce several different community outreach programs within Apache County, including juror appreciation as well as mock trial competitions for high school level students. These programs provide the public with a better understanding of the courts and the judicial branch of government.

Apache County remains optimistic about the recovery of the economy due to COVID-19. We continue to work in collaboration with elected officials and the Legislature to overcome budget issues and provide the highest level of services feasible for our citizens of Apache County.

Sincerely,

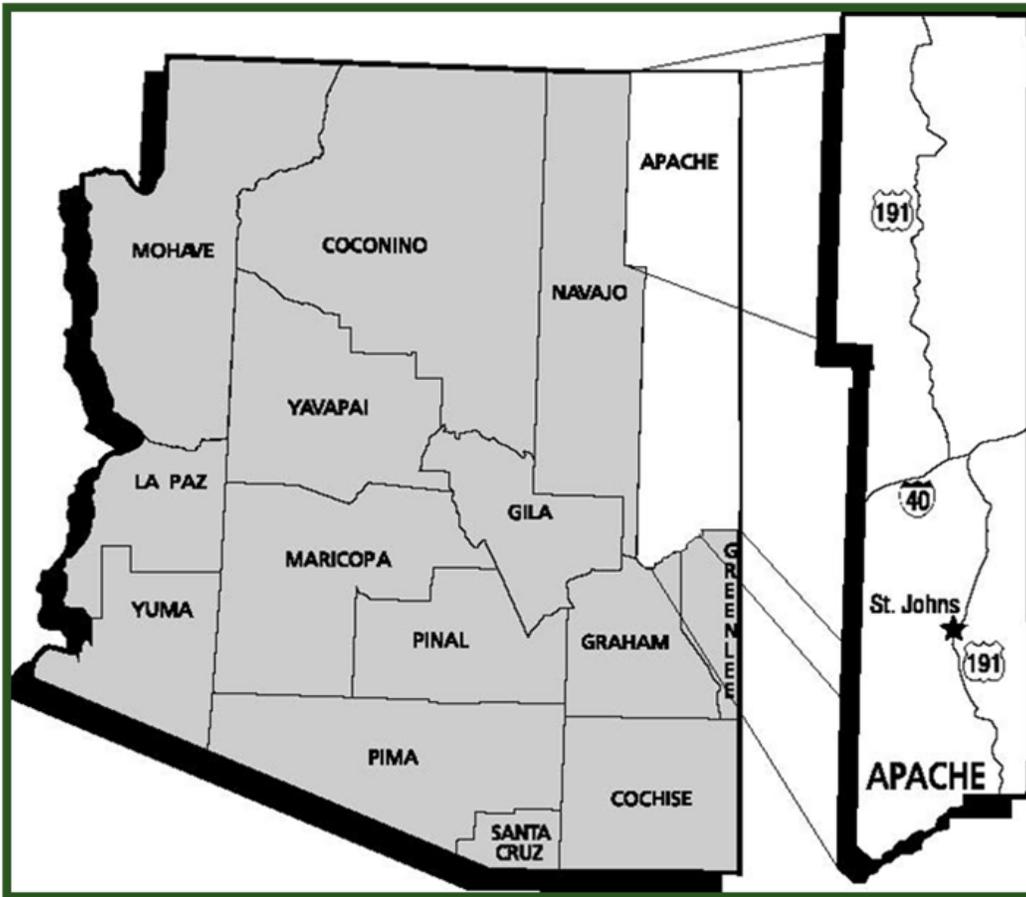

Ryan Patterson

HISTORY

Apache County was carved from Yavapai County — one of Arizona’s original four counties — on Feb. 24, 1879, by the 10th Territorial Legislative Assembly. Leaders of St. Johns and Globe had petitioned for their towns to be the county seat, but the honor went temporarily to Snowflake, with the provision that an election would determine the permanent county seat. In November 1879, on the strength of votes from the mining town of Clifton (now in Greenlee County), St. Johns was designated the county seat.

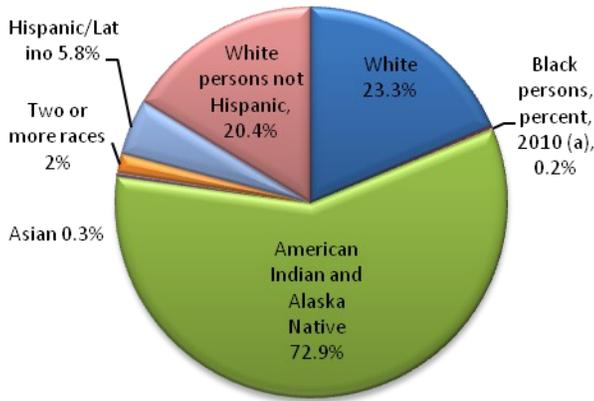

Originally, Apache County encompassed all of present-day Navajo County, part of Gila County and part of Graham County, but by 1895 its size had been reduced to the 11,216 square miles it occupies today. The Apache and Navajo Indian Reservations cover more than 65.4 percent of the county, and 25 percent of the state’s Native Americans live here. Approximately 21 percent is public land, and 13.2 percent is privately owned. All of Apache County is an Enterprise Zone.

The forested White Mountains and green pastures in the south of the county contrast sharply with the high, dry, colorful plateau region of the north. Excellent fishing, hunting and skiing make the White Mountains a year-round recreation area. Numerous archaeological sites are open to the public.

Fort Defiance, Arizona’s first military post, the Town of Ganado, and Hubbell’s famous trading post (now a National Historic Site) are located in northern Apache County on the Navajo Reservation. Chinle, another Indian trade center, is the gateway to the spectacular Canyon de Chelly National Monument. Also in Apache County are the spectacular Petrified Forest National Park and the Painted Desert, Window Rock, the Navajo tribal capital, and Casa Malpais Archaeological site. The Apache Indian Reservation, located in the White Mountains around the settlement of Fort Apache, includes 25 excellent fishing lakes, the renowned Sunrise Park Ski Resort for outdoor recreation, as well as the famous Hon-Dah casino.

TOURISM

Hubbell Trading Post

Ganado is home to the oldest continuously operating trading post on the Navajo Reservation, the Hubbell Trading Post. Now a National Historic Site, the trading post offers visitors a chance to experience a piece of history. Today, the non-profit Western National Parks Association maintains the trading traditions established by the Hubbell family. The trading post continues to sell high quality Native American crafts along with various sundries.

Canyon de Chelly

Reflecting one of the longest continuously inhabited landscapes of North America, the cultural resources of Canyon de Chelly include distinctive architecture, artifacts, and rock imagery. Canyon de Chelly also sustains a living community of Navajo people, who are connected to a landscape of great historical and spiritual significance. Canyon de Chelly is unique among National Park service units, as it is comprised entirely of Navajo Tribal Trust Land that remains home to the canyon community. NPS works in partnership with the Navajo Nation to manage park resources and sustain the living Navajo community.

Lyman Lake

Created as an irrigation reservoir by damming the Little Colorado River, Lyman Lake State Park is a 1,200-acre park that encompasses the shoreline of a 1,500-acre reservoir at an elevation of 6,000 feet. It is fed by snowmelt from the slopes of Mount Baldy and Escudilla Mountain, the second and third highest mountains in Arizona. Summer days, with temperature highs in the 80's to low 90's, are perfect for fishing, swimming, leisure boating, water-skiing, hiking or just plain relaxing. Besides providing recreational opportunities, the park offers a glimpse of prehistory of Arizona with Rattlesnake Point Pueblo and the Petroglyph Trail.

TOURISM

Petrified Forest

With one of the world's largest and most colorful concentrations of petrified wood, multi-hued badlands of the Painted Desert, historic structures, archeological sites, native grassland, and displays of over 200-million-year-old fossils, this is a surprising land of scenic wonders and fascinating science. Over 13,000 years of human history and culture are found at Petrified Forest National Park. From prehistoric peoples to early explorers, from the Civilian Conservation Corps to Historic Route 66, the park has many stories to tell.

Four Corners

The Four Corners Monument marks the only place in the United States where four states intersect at one point: Arizona, New Mexico, Utah and Colorado. The original marker erected in 1912 was a simple cement pad, but has since been redone in granite and brass. The Visitor Center is open year round, and features a Demonstration Center with Navajo artisans.

Apache and Sitgreaves National Forests

The Apache-Sitgreaves National Forests, administered as one national forest, encompass over two million acres of magnificent mountain country in east-central Arizona. The Sitgreaves National Forest was named for Captain Lorenzo Sitgreaves, a government topographical engineer who conducted the first scientific expedition across Arizona in the early 1850's. In the Sitgreaves, the major attractions are the Mogollon Rim and eight cold-water lakes. From the Mogollon Rim's 7,600-foot elevation, vista points provide inspiring views of the low lands to the south. The Apache National Forest ranges in elevation from 3,500 feet to nearly 11,500 feet and is named for the tribes that settled in this area. The area from Mount Baldy east to Escudilla Mountain is often referred to as the White Mountains of Arizona.

ELECTED OFFICIALS

APACHE COUNTY SHERIFF: JOSEPH DEDMAN JR.

Sheriff Joseph Dedman Jr. grew up in the Navajo community of Nazlini, Arizona. Nazlini is 15 miles north of Ganado in the northeastern part of Arizona. His mother passed away when he was young. He suddenly had to take on added responsibilities. Sheriff Dedman is the third oldest of three sisters and one brother. He fondly remembers riding his pony into Ganado or driving to the trading post in a wagon with his grandfather who was a medicine man. During the summers they planted corn, took care of horses, attended squaw dances and all the usual thing people do on the reservation.

As a young man, Sheriff Dedman learned the value of hard work and became a caring family member. As a high school student, he managed to earn money which he used to buy clothes or goodies for his siblings. All of that would prepare him for his 27-year career in law enforcement with the Navajo Nation Police Department—a career that would often put him among dignitaries such as U.S. President Bill Clinton, U.S. Vice President Albert Gore, U.S. Senator John McCain and U.S. department of Health and Human Services Secretary Tommy Thompson. He supervised their security during their visits to the Navajo Nation.

Sheriff Dedman began his career as a police communications operator and went on to the police academy where he trained to become a Navajo police officer. He went on to the State of New Mexico to become a certified peace officer. On receiving that certification, he went on to get certified in Tucson, Arizona. After receiving certification in Arizona he returned to the Navajo Nation where for two years, he worked for the Navajo Nation Division of Public Safety—stationed in Crownpoint, New Mexico as a patrol officer.

Sheriff Dedman’s was next assigned to the Special Investigation Unit of the Navajo Police—an often dangerous assignment. In one incident he went undercover and worked on a drug sting in Tuba City. “Eventually we caught some people and took them down to Phoenix,” he said.

After a tour with the SI unit, he returned to patrol duty in New Mexico for two years. In 1989 he was assigned as a personal security officer to former Navajo Nation leader Peter MacDonald during the tribal turmoil and eventual riot. “The riot happened,” he said, “but we worked with a special security unit that was hired to provide extra security. We learned a lot from those people. They were an elite trained team.” So while tribal leaders were in a political headlock, Sheriff Dedman was getting invaluable lessons.

At the Internal Affairs Department, Sheriff Dedman supervised a cadre of professionals who watched over a force of 350 police officers. He demonstrated professional standards and taught a supervisors course, discipline action, civil liabilities and leadership training for officers in training at the training academy in Toyei, Arizona. He continues to be involved in dignitary protection for special guests to the Navajo Nation and Apache County.

In 2008 Mr. Dedman won the election for the office of Apache County Sheriff and took office in January of 2009. He has since served two terms. In 2016 he ran unopposed in his bid for re-election and is proud and humbled to serve the citizens of Apache County for another 4 years. At the end of his fourth term as Sheriff Joseph Dedman Jr. will have served the citizens of the Navajo Nation, Apache County, and the United States of America for 39 years. Many of the other Arizona Sheriffs affectionately call him “the Real Sheriff Joe”. Sheriff Joseph Dedman Jr. is married and has three children and four grandchildren. He can often be seen riding his 1995 Harley Davidson around the Window Rock area.

CHALLENGES, ISSUES AND OPPORTUNITIES

The Round Valley Justice Court has faced a unique challenge this year with the onset of the COVID-19 pandemic. Initially, the court implemented the directive from Superior Court to only allow court access to "essential parties," to have all persons wash first at the station set up in the courthouse yard and then use hand sanitizer upon entrance, and to maintain distance where feasible. Although some parties were irritated by the washing requirement, most complied. Those that refused were told they could not enter the court. After the first COVID-19 case was reported in Eagar, Judge Gregory requested permission to conduct hearings only by telephone; that request was granted. When necessary, a clerk will open a screened window to converse with a patron, but most patrons see the notice posted on the door and simply call the court's number. Payments can be made by accessing the drop box in front of the court; receipts are then mailed to the patron. The overwhelming majority of patrons have been understanding and cooperative. All notices from the Superior Court are displayed prominently on the front door and are also posted on the county website.

APACHE COUNTY SHERIFF'S OFFICE

MISSION STATEMENT:

The Office of the Apache County Sheriff shall preserve the peace and protect life and property in Apache County. While accountable to the public, we are committed to providing professional and impartial public services which promote safe communities. We will maintain the public's confidence and trust with honor, integrity and dedication.

DEPARTMENT DESCRIPTION

Apache County occupies the northeastern portion of Arizona, covering approximately 11,127 square miles. Under the leadership of Sheriff Joseph Dedman Jr., the Apache County Sheriff's Office provides full-time law enforcement services throughout Apache County, including many unincorporated towns and subdivisions. Furthermore, much of the northern portion of Apache County is comprised of the Navajo Nation. In addition to assisting the Navajo Nation Police Department, the Apache County Sheriff's Office has law enforcement jurisdiction for the non-Native American population residing or visiting within the boundaries of the Navajo Nation.

The Apache County Sheriff's Office is currently staffed with approximately 80 employees, including 32 full-time law enforcement officers. These law enforcement officers are responsible for providing law enforcement services throughout Apache County. This includes, but is not limited to: patrolling assigned areas, deterring crime, conducting criminal investigations, and enforcing Arizona state laws and Apache County ordinances. The Apache County Sheriff's Office is also responsible for the secure storage of evidence seized during the course of criminal investigations and is solely responsible for the processing, service, and execution of all civil processes issued by the Apache County Superior Court.

In addition, the Apache County Sheriff's Office oversees the Apache County Special Crimes Enforcement Team (SCET), which is a multi-jurisdictional team including deputies from the Apache County Sheriff's Office and officers from the Eagar, Springerville, and Saint Johns Police Departments. SCET is responsible for enforcing Arizona state laws, with the primary responsibility of investigating drug crimes, especially egregious crimes, and illegal enterprise/gang activity within Apache County. SCET personnel routinely conduct surveillance operations, execute high-risk search warrants, and assist local law enforcement agencies, including: the Arizona Department of Public Safety, Arizona Department of Transportation, United States Drug Enforcement Agency, Arizona Attorney General's Office, Apache County Attorney's Office, Saint Johns Police Department, Eagar Police Department, Springerville Police Department.

Additionally, the Apache County Sheriff's Office has many civilian employees, such as detention officers, nurses, and administrative personnel. Many of these civilian employees staff the Apache County Jail. The Apache County Jail is a regional facility and is responsible for safely housing all sentenced and un-sentenced adult offenders within Apache County.

The Apache County Sheriff's Office also utilizes many volunteers, who staff the Northern and Southern Apache County Sheriff's Office Posses. These volunteers graciously assist with large public events, as well as search and rescue operations within Apache County.

Furthermore, the Apache County Sheriff’s Office houses a state-of-the-art communications/ dispatch center. The Apache County Sheriff’s Office Communications Center is responsible for the gathering and relaying of vital information and resources to first responders within Apache County. In doing so, the communications center services several law enforcement agencies within Apache County, including the Apache County Sheriff’s Office, United States Forest Service, Saint Johns Police Department, Eagar Police Department, and Springerville Police Department. The communications center also services the Vernon, Concho, Greer, Alpine, Nutrioso, and Puerco Valley Fire Districts, as well as the Springerville, Eagar, and Saint Johns Fire Departments.

ACCOMPLISHMENTS FOR FY 2020-2021:

The Apache County Sheriff’s Office continually sought out training opportunities for all sworn and non-sworn personnel. These training opportunities were selected with the goal of improving overall effectiveness and efficiency. The Apache County Sheriff’s Office also pursued several grant opportunities to ease the financial burden on Apache County and the Apache County Sheriff’s Office. The Apache County Sheriff’s Office and Apache County Special Crimes Enforcement Team were awarded approximately \$400,000 in State and Federal grant funding.

Additionally, the Apache County Sheriff’s Office focused on recruiting and retaining employees, while enhancing employee satisfaction and performance. This was done by encouraging professional and personal development by providing more training opportunities, as well as more detailed on-the-job training.

The Apache County Sheriff’s Office also purchased several new patrol vehicles. These vehicles were purchased to replace patrol vehicles with high mileage, causing them to incur costly repairs. The new patrol vehicles are rated for heavy duty use, and the vehicles they replaced were not. The new patrol vehicles also have a generous warranty. These factors greatly reduce vehicle repair costs.

GOALS AND OBJECTIVES FOR FY 2021-2022:

The Apache County Sheriff’s Office continually strives to improve overall effectiveness and efficiency, while providing exemplary service to the public. The Apache County Sheriff’s Office will take measures to decrease equipment maintenance costs, reduce workplace injuries, reduce civil liability, and promote accountability. This will be augmented by the use of body worn cameras and the Guardian Tracking program.

DEPARTMENT PROFILES
APACHE COUNTY SHERIFF’S OFFICE (Continued)

PERFORMANCE MEASURES:

The Apache County Sheriff’s Office and Apache County Special Crimes Enforcement Team will continue to aggressively pursue State and Federal grant funding opportunities, with the goal of easing financial strain on Apache County and the Apache County Sheriff’s Office, while increasing workplace and community safety. This funding will also help provided equipment and training to help improve overall performance and efficiency.

The Apache County Sheriff’s Office is also committed to reducing overall operating costs each year. However, law enforcement agencies can incur unforeseen costly financial burdens, such as equipment maintenance costs, work related injuries costs, and civil litigation costs. The Apache County Sheriff’s Office will continue to promote and provide up-to-date training opportunities to all personnel to decrease equipment maintenance costs, while promoting a safe working environment.

Furthermore, the Apache County Sheriff’s Office is committed to increasing the accountability of its employees to reduce liability. This accountability is in the form of utilizing Guardian Tracking, body worn cameras, and Lexipol policy manual and daily training bulletins.

CHALLENGES AND ISSUES:

One challenge facing the Apache County Superintendent’s Office is having backup personnel to perform the specialized tasks required for school payroll, expense and account reconciliation. With only one Accounting Specialist and one Payroll Specialist, it becomes difficult to meet the responsibilities to the school districts we support and serve if an extended leave were to occur. Cross-training while maintaining appropriate separation of duties is a constant concern.

The County School Superintendent is continuing to work with State Agencies to improve access to affordable broadband services to our underserved rural schools and communities. Our multi-million dollar project to bring fiber to our communities is complex and includes navigating the requirements of many state and federal agencies.

APACHE COUNTY SUPERIOR COURT

MISSION STATEMENT

The mission of the Superior Court of Apache County is to ensure the prompt and fair adjudication of all cases and to foster public confidence and trust in the Courts through accessibility, communication and education.

DEPARTMENT DESCRIPTION

As part of the State's only general jurisdiction court, the Superior Court of Apache County hears two types of cases, criminal and civil. All non-criminal cases are defined as civil and include divorce, paternity, child support and parenting times, collectively designated as family court matters. Juvenile matters which include delinquency, dependency, adoption and severance cases are also heard in Superior Court. In addition, Superior Court is the forum for mental health, probate and limited jurisdiction court appeals.

The Superior Court of Apache County is the anchor of the Judicial Branch that includes the Clerk of the Superior Court, four Justice of the Peace Courts, the consolidated Adult and Juvenile Probation Department, and the Court Appointed Special Advocate (CASA) Program.

ACCOMPLISHMENTS FOR FY 2020-2021

- The Superior Court has implemented Direct Filing for all Felony cases. This will assist with moving the cases through the court system in a timely manner
- Focusing on the youth in Apache County, the Superior Court has formed partnerships with the Apache County Youth Council, Drug Free Alliance, schools, and local organizations to enhance existing programs and develop new programs based on current trends negatively impacting the youth in our communities.
- Security improvements have been made at all of the courts in Apache County to bring us into compliance with the new State mandated security requirements. Funding has been requested for entryway metal detection screening devices for all Apache County court buildings.
- The E-Bench program utilized by judges at the Superior Court was implemented at the end of FY2019, allowing judges to view case files electronically and providing better caseflow efficiency and economy for both the judiciary and support staff. In addition to E-Bench, civil cases can now be filed electronically. Implementation/introduction of the other case types are to be introduced/rolled out in early FY2020, beginning with family law matters. Additional case types have been included in the E-Bench program.
- AZPOINT has been implemented to provide online access to Orders of Protection and Injunctions Against Harassment.

GOALS AND OBJECTIVES FOR FY 2021-2022

- The number of criminal cases has been increasing over the past five years (nearly double). This, along with staff shortage has been very stressful for all court staff. We are looking at ways to help alleviate the stress.
- Updating the response to community members who suffer from mental health issues. We are working with local and state agencies to streamline the protocol for handling such cases.
- Maintain performance on the timeliness of case processing in all case types and continue to meet the time standards established by the State. Although case filings continue to increase each fiscal year, the Superior Court endeavors to maintain/manage case flow with the current number of staff by shifting/adjusting work assignments and responsibilities.

DEPARTMENT PROFILES
APACHE COUNTY SUPERIOR COURT (CONTINUED)

GOALS AND OBJECTIVES FOR FY 2021-2022 (continued)

- Increase the number of resources available to self-represented litigants in obtaining appropriate services, including upgrades to system technology in order to allow access to court forms, court calendars, legal research, and court procedures. This objective is ongoing as needs and technology changes.
- Continue to expand/improve the work of the Court’s Dependency Caseload Workgroup, a multi-agency effort that works to ensure that parties to cases involving children who have been removed from the parents’ home are assured prompt access to the courts and due process.
- Develop and promote additional community outreach programs throughout Apache County. Programs such as these provide the residents in our county a better understanding of the courts and the judicial branch of government.
- Seek funding to provide and maintain a safe and secure environment for the public and court staff.
- In an effort to keep travel/training cost at a minimum, the Superior Court will enhance in-house training opportunities for court employees and court partners focusing on procedural and case processing standardization.
- Increase the number of volunteers to the Court Appointed Special Advocate (CASA) Program by continuing recruitment and identifying other possible resources. CASA volunteers advocate for the best interests of the County’s most vulnerable children who are victims of abuse or neglect. It is our goal to ensure that each child has a volunteer appointed to speak on their behalf throughout the court process.
- Assist with the development of a Mental Health protocol. Provide services to those in need rather than placing them in the court system as needed.

BUDGET SUMMARY

APACHE COUNTY PURCHASING POLICY

INTRODUCTION

The purchasing policy is to promote efficient use of financial resources and minimize administrative time, cost, and effort. An effective purchasing system allows the County to identify the goods and services required for County operations and acquire them as economically as possible within acceptable standards of quality.

The County has developed internal controls over purchasing that provide adequate authorization of and accountability for County expenditures and ensures that procurement policies are consistent with legal requirements and sound business practices.

The purchasing policies and procedures have been developed in sufficient detail to identify the responsibilities, duties, and tasks of employees.

LEGAL REQUIREMENTS

The legal requirements governing County purchasing policies and procedures are primarily derived from the Arizona Revised Statutes (A.R.S.).

1. The Board of Supervisors has the exclusive power to contract for the County. The County may cancel any contract within three years of execution without penalty or further obligation if any person involved in initiating, negotiating, securing, drafting, or creating the contract on the County's behalf is, or becomes, an employee, agent, or consultant of the other parties to the contract. The cancellation is effective when all other parties to the contract receive written notice, unless the notice specifies a later time. Notice of this legal provision must be included in every contract to which the County is a party. A.R.S. §§11-201 and 38-511
2. The County must use sealed, competitive bidding procedures for purchases of supplies, materials, equipment and contractual services, except professional services, with an estimated cost exceeding \$100,000. A.R.S. §11-254.01, 41-2535 and 41-2501(C)

The following are exceptions to the requirement:

- a. Sole source purchasing: A contract may be awarded for materials, goods, services or construction items without competition, if the department head determines in writing that there is only one source for the required submission of cost or pricing data in connection with an award under this section. Sole source purchasing shall be avoided except when no reasonable alternative sources exist. A written determination of the basis for the sole source purchasing shall be included in the contract file. A.R.S. §41-2536
- b. Emergency purchasing: Notwithstanding any other purchasing policy, the Board of Supervisors by a two-thirds vote may make or authorize others to make emergency procurements if there exists a threat to public health, welfare or safety or if a situation exists which makes compliance with section A.R.S. §41-2533, 41-2534, 41-2578, 41-2579 or 41-2581 impracticable, unnecessary or contrary to the public interest as defined in rules adopted by the Board, except that such emergency procurements shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file.

APACHE COUNTY PURCHASING POLICY (continued)

- c. Search & Rescue: Notwithstanding any other purchasing policy, the Sheriff may make or authorize others to make Search and Rescue procurements if there exists a threat to public health, welfare or safety, or if a situation exists which makes compliance with A.R.S. §41-2533, 41-2534, 41-2578, 41-2579 or 41-2581 impracticable, unnecessary or contrary to the public interest as defined in rules adopted by the Board of Supervisors, except that such Search and Rescue procurements shall be made with such competition as is practicable under the circumstances. A written determination of the basis for the Search and Rescue and for the selection of the particular contractor shall be included in the contract file.
- d. Purchases of \$100,000 or less shall be made using the following procedures as recommended by the Auditor General A.R.S. §11-254.01, 41-2535 and 41-2501(c):
- Elected officials and department heads may approve purchases, within their board approved budget, costing less than \$5,000. Board pre-approved budget overrides shall be required for any purchases that exceed approved budgets. The elected official or department head must use reasonable efforts to obtain the lowest and best price.
 - The finance department may approve purchases costing at least \$5,000 but less than \$35,000. Requesting department shall obtain at least three written price quotations, or retain documented evidence of reasonable attempts to obtain three price quotations prior to PO being issued.
 - The County Manager may approve purchases costing at least \$35,000, but not more than \$100,000. Requesting department shall obtain at least three written price quotations, or retain documented evidence of reasonable attempts to obtain three price quotations prior to PO being issued.
 - The Board of Supervisors shall approve all purchases for services \$100,000 and above. The purchase must have sealed competitive bids and department will provide the bid specifications to the Clerk of the Board of Supervisors.
 - The vendors contacted and their price quotations should be indicated on, or attached to, the file copy of the purchase order. If three quotations cannot be obtained, the County should also document the vendors contacted who did not offer price quotations and the reason why they did not. If a vendor is selected because of reasons other than the lowest price, such as quality of the product or work to be performed, the reasons must be fully documented.
 - The invitation for price quotes must be issued in sufficient time before the purchase is made and in sufficient detail to permit free competition. Normally, ten working days is sufficient time.
 - For purchases of \$4,999.00 or less, the department head must use reasonable efforts to obtain the lowest and best price. All purchases over \$500 shall be made by purchase order.

APACHE COUNTY PURCHASING POLICY (continued)

- Persons or businesses engaged in providing the service(s) required, shall submit written statements of qualifications and expressions of interest in providing such service(s) to the Elected Official or Department Head.
- The Elected Official or Department Head will recommend to the County Manager the professional service provider to which a contract, equal to or less than \$20,000 per fiscal year, should be awarded, after considering the qualifications and making a determination that the compensation is fair and reasonable.
- The Elected Official or Department Head will recommend to the Board of Supervisors the professional service provider to which a contract, above \$20,000 per fiscal year, should be awarded, after considering the qualifications and making a determination that the compensation is fair and reasonable.
- The written statements of qualifications and expressions of interest shall be maintained with the contract file.

4. The County may enter into an annual cooperative procurement agreement with the State Procurement Office that allows them to purchase goods or services from any vendor on the state contract. The County may also enter into a written cooperative purchasing agreement with a federal agency. A.R.S. §§41-2632 and 41-2634. A list of these agreements is on file in the Finance Department.
5. The County may enter into agreements with one or more public agencies to make joint purchases. The County may also form separate legal entities, including nonprofit corporations, to contract or perform some or all of the service specified in the contract or agreement. If a separate legal entity is

APACHE COUNTY PURCHASING POLICY (continued)

formed, the contract or agreement must specify its precise organization, composition, title, and nature. Any agreement with another public entity must specify the following: duration; purpose; method of financing, establishing, and maintaining a budget; method of accomplishing the agreement's partial or complete termination; method for disposing of property on termination; and any other necessary matters. The County Attorney must review the agreement. A.R.S. §11-952

6. The County may enter into long-term agreements for the purchase of personal property, provided that the County includes a provision allowing it to cancel the agreement at the end of each fiscal year of the agreement. A.R.S. §11-251
7. For construction, the Board of Supervisors must award the contract to the lowest responsible bidder with a satisfactory proposal. However, preference must be given to contractors and bidders who have paid real or personal property taxes in accordance with A.R.S. §§34-241 and 34-243, over any competing contractor or bidder who has not paid such taxes, whenever the bid of the competing contractor or bidder is less than 5 percent lower. In addition, preference must be shown to bidders who furnish materials produced or manufactured in Arizona in accordance with A.R.S. §34-242 over any competing bidder who furnishes materials not produced or manufactured in Arizona whenever the bid of the competing bidder, quality and suitability considered, is less than 5 percent lower.
8. The County must use sealed, competitive bids for any building, structure, addition, or alteration if the total cost of the work, excluding materials and equipment previously acquired by bid, exceeds \$14,000 beginning in fiscal year 1994-95, adjusted each year thereafter for the annual percentage change in the GDP price deflator as defined in A.R.S. §41-563. A.R.S. §34-201.
9. The County Treasurer must disburse County monies either by a warrant issued by the Board of Supervisors or an electronic transfer authorized by the Board of Supervisors. A.R.S. §11-493

11. At year-end, all outstanding encumbrances will be terminated after 60 days. Warrants may be issued to pay for these liabilities up to 60 days after fiscal year-end. After that, no further payments may be made for prior-year claims. A.R.S. §11-624.01 The County must pay in full for goods and services purchased on account from a nongovernmental entity within 30 days after the goods and services are received and properly billed. Vendors requiring 1099 forms may include individuals, partnerships, estates, and, on rare occasions, corporations. The County does

APACHE COUNTY PURCHASING POLICY (continued)

not need to prepare 1099 forms for most corporations and all tax-exempt organizations. The County must also file Form 1099 with the IRS by February 28th each year. The County must also obtain taxpayer ID numbers from vendors for 1099 reporting purposes. As such, all vendors must have a Form W-9 with their taxpayer ID number on record with the Finance Department prior to any purchase.

13. The Board of Supervisors must not consider a demand unless prepared as prescribed in A.R.S. §11-622 and filed by the clerk at least one day prior to the session at which it is to be considered. Demands so filed shall be considered and passed upon at the next regular session after they are presented, unless for good cause the Board postpones consideration of them to a future session. A.R.S. §11-625
14. The County shall not approve or pay a demand in which a County officer is personally interested, or arising out of a contract to which a County officer while in office has been a party of or otherwise personally interested in, and such contract, claim or demand is null and void, except for official compensation of the persons in whose name it is presented. A.R.S. §11-627
15. The Board of Supervisors shall not allow a demand in favor of a person indebted to the County without first deducting such indebtedness, or in favor of an officer whose accounts have not been rendered and approved, or who has neglected or refused to make his/her official returns or report in writing, as required by law, or in favor of any officer who willfully neglects or refuses to perform the duties of his office. The Board may examine the claimant, or any other person, on oath to determine the justness of the demand. A citizen or taxpayer of the County may appear before the Board and oppose the allowance of any demand. A.R.S. §11-628
16. The Board of Supervisors must reject any demand if the demand is not a proper County charge. If the demand is a proper County charge, but larger than is just, the Board may allow the claim in part and draw a warrant for the part allowed. A.R.S. §11-629

PROCEDURES

The purchasing cycle consists of five functions: requisitioning, budgetary control, purchasing, receiving, and accounts payable. Duties must be adequately segregated among employees so that no individual performs all steps of a transaction.

Requisitioning

Generally, County departments are responsible for planning purchase requirements and communicating them to the Finance Department far enough in advance that goods may be ordered in economical quantities. A designated employee within each department should prepare the requisition forms to help ensure that they are accurately completed. Requisitions should include the following information: requesting department, date, description of items, quantity, unit cost, estimated total cost, fund, function, object code, delivery site, and date required. The required services or materials should be described on the requisition in

APACHE COUNTY PURCHASING POLICY (continued)

enough detail to allow competitive purchasing. Brand or trade names and catalog numbers may be considered, but they should not be the sole determining factor in the final selection. The department head or a designated employee should review all requisitions for propriety and approve them. The requisition should be maintained on file in the Finance Department. Once the goods are ordered, the department should match its requisition against the purchase order to ensure the proper goods or services were ordered. If requisitions are prepared online, the County should have equivalent procedures to maintain evidence of applicable reviews and approvals.

Emergency Purchases

An emergency or Search and Rescue condition threatens the functioning of the County, the preservation or protection of property, or the health or safety of the County’s citizens and creates an immediate and serious need for materials or services that cannot be met through normal purchasing methods. Emergency and Search and Rescue purchases should be limited to only the materials or services necessary to satisfy the emergency and Search and Rescue need.

For emergency and Search and Rescue purchases to be exempt from legal restrictions, or normal County purchasing requirements, the Board of Supervisors must determine, by at least a two-thirds vote, that an emergency exists, or existed, that requires immediate action to protect the public health or safety. A.R.S. §11-254.01

The department requesting the emergency purchase should prepare all demands attaching the minutes of the Board meeting that declared the emergency. They also must have in writing requests documenting the existence of an emergency or Search and Rescue condition and explaining the immediate purchase need. A copy of each request and amount processed under this procedure should be kept on file in the department requesting the emergency purchase and at the County Finance Department. If the nature of the emergency does not permit time to submit a written request, the department may verbally request approval for the purchase. The Finance Department may approve a written request subsequent to the purchase if:

- The emergency necessitated immediate response and it was impracticable to contact the Finance Department.
- The purchase was made with as much competition as was practicable under the circumstances.
- The price paid was reasonable given the circumstances of the emergency.

Budgetary Control

The budgetary control function is responsible for verifying that sufficient budget capacity exists before the Finance Department issues purchase orders to vendors. The budgetary control function is established within the Finance Department. The estimated cost recorded on completed requisition forms should be compared to budget capacity. If budget capacity is not sufficient for the proposed purchase, this should be noted on the requisition and the requisition should be returned to the Finance Department. If budget capacity is available, the requisition should be approved. Evidence of the budgetary check should be documented on the requisition. After receiving an approved requisition from the budgetary control function, the Finance Department should issue a purchase order to a vendor. If encumbrance accounting is used,

APACHE COUNTY PURCHASING POLICY (continued)

monies should be encumbered at that time. The County should maintain records that identify monies committed for expenditures so that an unencumbered and unexpended budget balance may be determined.

Purchasing

The individual departments negotiate purchases with vendors and follow up with vendors when goods are not received or are returned. The County may use several different purchasing methods. The most common method is an outright purchase through the formal purchasing process. Lease purchases and installment purchases may be used to acquire assets when feasible. Some expenditures are specifically exempted from the formal purchasing process. Exempt expenditures may include salaries and related costs, jury and witness fees, utilities, communications, and postage. Other purchases for small dollar amounts and orders that require immediate cash outlay may be paid from petty cash or by check from a revolving fund bank account. The department should select a qualified vendor based on the price quotations or bids received. The department should then complete the requisition by adding the price quotation or bid amount submitted by the selected vendor and a total cost, including tax, delivery, insurance, and other ancillary costs. If the total cost exceeds the estimate recorded on the requisition, budget capacity should again be verified.

Competitive Purchasing - The County must use sealed, competitive bidding procedures for purchases of supplies, materials, equipment, and contractual services, except professional services, with an estimated cost exceeding \$100,000.

Purchases of \$100,000 or less shall be made using the following procedures as recommended by the Auditor General:

1. For purchases costing less than \$5,000, the County should use procedures providing for adequate and reasonable competition.
2. For purchases costing at least \$5,000 but less than \$35,000, the County shall obtain at least three written price quotations or retain documented evidence of reasonable attempts to obtain three price quotations.
3. For purchases costing at least \$35,000 but not more than \$100,000, the County shall obtain at least three written price quotations or retain documented evidence of reasonable attempts to obtain three price quotations.

Whether to request an oral or written price quotation is determined by analyzing the known requirements for an item or a collection of items that, in the aggregate, may result in the purchase of the item(s), above the applicable threshold, from one vendor. The vendors contacted and their price quotations should be written on or attached to the file copy of the purchase order. If three price quotations cannot be obtained, the County should also document the vendors contacted who did not offer price quotations and, if known, the reasons they did not do so. If a vendor is selected because of reasons other than the lowest price, such as quality of the product or work to be performed, the reasons should be fully documented. The invitation for price quotations should be issued in sufficient time before the purchase is made and in sufficient detail to allow vendors to respond. An exception to the above guidelines for price competition may be made in the event of an emergency.

APACHE COUNTY PURCHASING POLICY (Continued)

When the County determines that a purchase meets the criteria requiring that it be bid, the County must issue the invitation for bids and specifications in sufficient time before the purchase is made and in sufficient detail to permit free competition.

Notice of the invitation for bids must be published in a newspaper and should be published in the notice in the official newspaper of the County. The official newspaper of the County is that to which the County annually awards the contract for advertising publications and printing required by the County pursuant to the requirements in A.R.S. §11-255.

Note that unless otherwise specified in law, written notice must be published in a daily paper four consecutive times or a weekly paper once each week for two consecutive weeks. A.R.S. §39-204 The County must retain an affidavit attached to a copy of the published notice from the newspaper as proof of the publication. A.R.S. §39-205

Copies of the invitation and specifications must be supplied to and bids must be solicited from qualified sources consistent with the item to be purchased as determined by the County purchasing agent. Those sources include all qualified suppliers who, before the invitation is issued, notify the Finance Department in writing that they desire to bid on materials, supplies, equipment, or contractual services. A.R.S. §11-254.01

Bids must be opened publicly at the time and place stated in the invitation. On Board approval, the County purchasing agent must make awards with reasonable promptness by giving written notice to the qualified bidder whose bid conforms to the invitation and whose bid is the most advantageous to the County concerning price, conformity to the specifications, and other factors. The Board may reject all bids if rejection is in the public interest. A.R.S. §11-254.01

Construction

The County must use sealed, competitive bids for any building, structure, addition, or alteration if the total cost of the work, excluding materials and equipment previously acquired by bid, exceeds \$14,000 beginning in fiscal year 1994-95, adjusted each year for inflation. A.R.S. §34 201(C)

The County must, upon acceptance and approval of the working drawings and specifications, publish a notice to contractors of intention to receive bids and contract for the proposed work. A.R.S. §34-201

The notice must state:

- The nature of the work required, the type, purpose, and location of the proposed building, and where the plans, specifications, and full information as to the proposed work may be obtained.
- That those contractors desiring to submit proposals may obtain copies of full or partial sets of plans and specifications for estimate on request or by appointment. The return of the plans and specifications must be guaranteed by a deposit, which must be refunded on return of the plans and specifications in good condition.
- That a certified check, cashier's check, or surety bond must accompany every proposal for ten percent of the amount of the proposed bid as a guarantee that the contractor will enter into a contract to perform the proposal in accordance with the plans and specifications.

APACHE COUNTY PURCHASING POLICY (Continued)

- The certified check, cashier’s check, or surety bond must be returned to the contractors whose proposals are not accepted and to the successful contractor on the execution of a satisfactory bond and contract. However, A.R.S. §34-201 discusses in detail the following exceptions to soliciting bids for construction contracts:
- Construction of public buildings or additions or alterations to public buildings by inmates of the institution and County employees. A.R.S. §34-201(B)
- Construction of recreational projects including trails, playgrounds, ballparks, and other similar facilities, excluding buildings, structures, and building additions using volunteer workers or workers provided by a nonprofit organization, subject to limitations on the project’s cost. A.R.S. §34-201(F)

Construction contracts must be awarded to preferred bidders, as defined in A.R.S. §§34-241 through 243, whenever the bid is within five percent of the lowest bid. The amount of any applicable sales or use tax must not be a factor in determining the lowest bidder if a competing bidder is not subject to sales or use tax. A.R.S. §34-243.01. The Board of Supervisors may reject any or all construction proposals. It may also withhold the award for any reason it determines. A.R.S. §34-201. However, before any contract is executed for construction of a public building, the contractor must furnish the Board of Supervisors with the following bonds made payable to the County. The County should review A.R.S. §34-222 for specifics.

- A performance bond equal to the full contract amount to ensure performance in accordance with the contract’s plans, specifications, and conditions.
- A payment bond equal to the full contract amount for the protection of claimants supplying labor or materials to the contractor or his subcontractors in the performance of the work provided for in the contract.

When the Board of Supervisors enters into a construction contract with the selected bidder, the terms of payment must include the following:

- The Board must retain ten percent of all estimates as a guarantee for complete performance of the contract. The monies retained must be paid to the contractor within 60 days after completion or filing notice of completion of the contract. A.R.S. §34-221(B)(2) and (B)(5)
- Instead of the retention explained above, the Board may accept certain securities described in A.R.S. §34-221 in an amount equal to ten percent of all estimates that will be retained by the Board as a guarantee for complete performance of the contract. A.R.S. §34-221(B)(5)
- The County may make progress payments on contracts of less than 90 days and must make monthly progress payments on all other contracts. The progress payments, less any applicable monies retained, must be made within 14 days after the work estimate is certified and approved. A.R.S. §34-221(B)(2)
- When the contract is 50 percent completed, the County may pay one-half of the amount retained, including any securities substituted, on the contractor’s request, if the contractor is making satisfactory progress on the contract and there is no specific cause or claim requiring a

APACHE COUNTY PURCHASING POLICY (Continued)

- greater amount to be retained. After the contract is 50 percent completed and if the contractor is making satisfactory progress, no more than 5 percent of any subsequent progress payments may be retained. However, if at any time the County determines that satisfactory progress is not being made, ten percent retention must be reinstated for all progress payments made under the contract after that determination. A.R.S. §34-221(B)(3)
- On completion and acceptance, payment may be made in full, including retained percentages, less authorized deductions. A.R.S. §34-221(B)(4) In addition, the County should refer to A.R.S. Title 34, Chapter 6 for specific requirements relating to services from architects, assayers, engineers, geologists, and landscape architects, and for construction and land surveying.

Professional Services

The Board of Supervisors must adopt written procedures for the procurement of professional services other than those specified in A.R.S. Title 34. A.R.S. §11-254.01 (See A.R.S Title 34 for exceptions to these following procedures):

1. Professional services shall not be purchased by sealed bids or proposals, but will be negotiated between the head of the department which requires the service(s) and the professional(s).
2. Persons or businesses engaged in providing the service(s) required, shall submit written statements of qualifications and expressions of interest in providing such service(s) to the department head.
3. The Elected Official or Department Head will recommend to the County Manager the professional service provider to which a contract, equal to or less than \$20,000 per fiscal year, should be awarded, after considering the qualifications and making a determination that the compensation is fair and reasonable.
4. The department head will recommend to the Board of Supervisors the professional services provider to which a contract, greater than \$20,000 per fiscal year, should be awarded after considering the qualifications and making a determination that the compensation is fair and reasonable.
5. The written statements of qualifications and expressions of interest shall be maintained with the contract file.

Vendor Selection

The County should establish criteria for selecting vendors to ensure that each vendor is a legitimate, established business; is financially responsible; and is able to meet the County's requirements, including but not limited to, proper permits. When a new vendor is being considered, the County may wish to contact the Better Business Bureau, local Chamber of Commerce, or former customers for references. Prices paid to vendors should be periodically reviewed to evaluate the competitiveness of the purchasing function. All County governing board members, officers, and employees are required to complete or update conflict-of-interest statements annually, if any changes exist. A.R.S. §38-503. The County may purchase limited supplies,

APACHE COUNTY PURCHASING POLICY (Continued)

materials, and equipment from a member of the Board of Supervisors without using public competitive bidding procedures. These purchases are limited to \$300 in any single transaction and no more than \$1,000 annually from any Board of Supervisors member. The policy to allow such purchases must be approved annually. A.R.S. §38-503(C)(2)

Purchase Orders

Purchase orders should be pre-numbered. These procedures provide control over copy distribution and facilitate purchase order filing. Purchase orders should include the County name, pre-numbered purchase order number, account code, date prepared, vendor, County department, expected delivery date, destination, quantity, description, unit, unit price, total cost, and an authorizing signature and date. An authorized employee should prepare and sign the purchase order. Open purchase orders should be closed at the end of the fiscal year. The accounts payable personnel should maintain an open purchase order file for all outstanding purchase orders. This file should be reviewed periodically to investigate all unmatched or outstanding purchase orders.

Blanket Purchase Orders - The County may use blanket purchase orders for items, such as auto parts, office supplies, and gasoline that are purchased on a recurring basis from the same vendor within a specified time frame. Procedures for preparing, approving, and processing blanket purchase orders are subject to the same internal controls as standard purchase orders. A blanket purchase order should also state a specific time period that the purchase order is in effect and a maximum dollar limit. Invoice amounts paid against a blanket purchase order should be deducted from the total limit to determine the unexpended balance remaining. The County should periodically review open blanket purchase orders and investigate and cancel purchase orders outstanding for more than the specified time period. All blanket purchase orders must be closed with the vendor at year-end and new blanket purchase orders should be issued.

Lease Agreements - Lease agreements are classified as either operating or capital leases (also known as lease purchase agreements). An operating lease is an agreement between a lessee and a lessor for the use of an asset. Title of ownership does not pass to the lessee in an operating lease. Under the provisions of a capital lease, title to the asset passes to the lessee at the end of the lease term. All lease agreements are subject to competitive purchasing requirements. The County may require a requisition and purchase order to be prepared at the inception of the lease agreement and at the beginning of each subsequent fiscal year. The accounts payable personnel should process payments in the same manner as invoices for purchases of goods and services. However, the current portion of a capital lease payable should be encumbered in its entirety at the start of the fiscal year.

Lease-Purchase Agreements - A lease-purchase agreement must be executed for a period of one fiscal year only and allow the County to continue the agreement for succeeding one-year periods until the purchase is completed. The Board of Supervisors may cancel any lease-purchase agreement by giving written notice to the seller. Title to the equipment remains with the seller until full payment has been made. A.R.S. §§11-651, 11-652, and 11-653. The County may also enter into lease-purchase agreements for real property and improvements to real property. The agreement may not extend beyond 25 years. In addition to lease-purchases, the County may enter into other long-term agreements for the purchase of personal property,

APACHE COUNTY PURCHASING POLICY (Continued)

provided that a provision is included allowing the County to cancel the agreement at the end of each fiscal year of the agreement. A.R.S. §11-251

Installment Purchase Contracts - Installment purchase contracts are similar to capital leases in that the contract requires a specified number of periodic payments. Title may pass at the time the property is transferred, after a specified number of payments, or following the final payment. A requisition and purchase order should be prepared at the initiation of the installment purchase contract to check for sufficient budgetary capacity to make the current year's payments. For budgetary control purposes, a new requisition and purchase order should be prepared in each subsequent year of the installment purchase contract. The current portion of the contract should be encumbered at the beginning of each fiscal year. Vendor invoices for installment purchase contracts should be processed by the accounts payable personnel in the same manner as invoices for other purchases of goods and services.

Receiving

Each department should designate employees within certain departments to perform the receiving function. Receiving personnel should inspect goods to verify that they meet County specifications and note any damaged goods. The goods should be counted, weighed, or measured, and the quantities received should be recorded on the receiving report. The employee receiving the goods is responsible for signing and dating the receiving report. After delivery, the receiving personnel submit the receiving report to the Finance Department with applicable shipping documents, such as a bill of lading or packing slip. The receiving personnel retain a copy of the receiving report. If goods received are damaged, of substandard quality, or otherwise unsatisfactory, the Finance Department should initiate a request for a credit memo from the vendor. Return shipments are documented by recording the date, vendor name, quantity, description, purchase order number, and other pertinent information. A receipt should be obtained from the vendor or independent carrier for all return shipments. Additionally, all documents relating to the return shipment should be submitted to the Finance Department. The employee responsible for procuring the services or planning the project prepares such receiving reports. Receiving reports are to be signed, dated, and submitted to the Finance Department.

Accounts Payable

All demands or purchase orders must be submitted to the Finance Department by Monday at 12:00pm in order to be included in the current week's run. The Finance Department verifies that all supporting documents are attached, mathematically accurate and that fund distribution is appropriate. All out-of-state vendors are identified for Use Tax Reporting purposes. In addition, all capital assets are identified for proper recording within the capital asset records.

Demands and purchase orders are input into the computer system and a report of all inputs is printed. The Finance Department reconciles what was input into the system with the demand or purchase order to confirm accuracy. An outstanding invoice report is printed and signed by the Finance Department. An open invoice report is printed and given to the Clerk of the Board for the Board's signatures. The checks are printed and disbursed by separate individuals.

The Finance Department maintains and continually updates accounts payable records. Monthly statements from vendors are periodically reconciled to the accounts payable records. The Finance Department

APACHE COUNTY PURCHASING POLICY (Continued)

should periodically review accounts payables in the accounting records for debit balances, and investigate and resolve such balances.

The County must issue warrants in a timely manner to comply with statute and ensure that vendor discounts may be taken. A.R.S. §35-342 requires that the County pay in full for goods and services received from a nongovernmental entity within 30 days after receipt of the goods and services and written notice of the amount due. If the County fails to do so, it must pay interest on the outstanding balance at the rate prescribed in A.R.S. §44-1201 until the account is paid in full, unless a good faith dispute exists as to the obligation to pay all or a portion of the account. After warrants are issued to the vendor, invoices are canceled to prevent duplicate payment. This may be accomplished by stamping the invoice with the date of payment and recording the warrant number on it. The canceled invoice, with its attached supporting documentation, is filed in a paid invoice file by vendor. Signature Authorization Sheets must contain a list of employees that are authorized to approve purchase orders and demands for each department and should be submitted to the Finance Department.

Payments on Demand

The County may make payments exceeding \$500 on presentation of a demand. A “demand,” as used within the statute, refers primarily to a claim. Claims for goods or services must be submitted in writing. A.R.S. §§11-621 and 11-622. A County may not pay a demand unless it is received within 6 months after the goods have been received or the services have been performed. Payments due to jurors and witnesses, official salaries, and amounts not exceeding \$500 may be paid without presentation of a demand. The required supporting documentation consists of a purchase order, receiving report, and an itemized invoice. A.R.S. §§11-621 and 11-622

The Board’s minutes must contain the following demand payment information: the demand number, presenter, amount, and paying fund. The minutes must also contain the following warrant information: warrant number, payee, amount, and purpose of payment. A.R.S. §11-623. The Board’s published minutes must report all approved demands and warrants in excess of \$1,000. Published minutes must also report multiple demands and warrants under \$1,000 that were for a single supplier or individual whose cumulative total exceeded \$1,000 in a single reporting period, which must not exceed 30 days. A.R.S. §11-217

The full minutes of each Board meeting must be published in the County’s official newspaper no later than two months after the meeting. Each newspaper that publishes the Board’s minutes must supply a copy of the published minutes to County public libraries. In addition, the newspaper must make the minutes for the prior three-month period available for use by the public on an online computer information service at no expense to the County. A.R.S. §11-217

Credit Memos

Goods that are returned and the resulting credit memos should be accounted for properly. Documents verifying return shipments from the Finance Department, and credit memos that include reference to the information on the original invoices from vendors should be obtained. The credit memo should include all pertinent information relating to goods returned to vendors, and all other claims, such as short deliveries, freight claims, and claims for damaged goods not returned. If credit memos are not resolved within a specified time period, the accounts payable personnel should contact the vendor to initiate a refund. Credits applicable to current year unpaid invoices should be netted against those invoices prior to payment.

APACHE COUNTY PURCHASING POLICY (Continued)

Credits applicable to current year invoices that have already been paid should be accounted for as reductions of expenditures. If the credit memo is to be received after the fiscal year in which the goods were purchased, the County should request a cash refund, which is generally recorded as miscellaneous revenue. However, if the credit memo is for a material amount, the County should adjust the beginning fund balance. When the credit memo is issued after the invoice has been paid, a journal entry should be recorded to reflect the receivable due from the vendor.

Year-End Cutoff

At fiscal year-end, the County should prepare a listing of Encumbrances by fund for goods received or services rendered on or before June 30th that will not be paid by June 30th. The list of Encumbrances should include the vendor name, receiving report date, purchase order number, and estimated cost as recorded on the purchase order, or actual cost if the County has received the invoice. The Board may draw warrants on these amounts for up to 60 days after the close of the fiscal year. Any encumbrances outstanding at the end of 60 days lapse.

Any participant in the County's investment pool depositing monies with the Treasurer must assure itself the investments contained in the Treasurer's pool comply with the subdivision's specific investment authority. In addition, the Treasurer does not limit or restrict yield on pools unless specifically mentioned herein. Depositors wishing to restrict yield for purposes of the Internal Revenue Service's Arbitrage Bond Regulations must make their own determinations as to whether the investment pool deposit meets any restricted yield obligation pertaining to the funds deposited.

APACHE COUNTY DEBT POLICY

Responsible debt management policy maintains the County’s ability to incur present and future debt at minimal interest rates in amounts needed for infrastructure and economic development without endangering its ability to finance essential County services.

- The County will not fund current operations from the proceeds of borrowed funds.
- The County will confine long-term borrowing to capital improvements or projects.
- When the County finances capital projects by issuing debt, it will repay the debt within a period not to exceed the expected useful life of the project.

The legal debt limit of the County is equal to 15% of the County’s net secondary assessed valuation. For FY22 this would total \$122,139,225.

POLICY REQUIREMENTS OF THE BUDGET

The Board of Supervisors adopted policies and strategic goals and priorities which are used by the departments to guide them through the budget process. Early in the budget process cycle, departments are required to provide revenue and expenditure estimates for the current fiscal year and planned revenues for the following year. The budget team uses these estimates to assist in the compilation of the budget documents. Departments also provide an estimate of available fund balances in their Special Revenue Funds to be carried over to the next fiscal year. Departmental requests for incremental increases emphasize funding for program and service changes rather than specific items to be purchased. All decisions are subject to the availability of the County's financial resources and consistency with program and policy goals set for the budget process.

STATE LEGAL REQUIREMENTS OF THE BUDGET

Apache County's budget process is developed each year to meet the requirements of both Arizona State Statutes and the County's management and policy needs. The State Statutes that govern the process are ARS §§11-705, and 42-17101 through 42-17110. These statutes establish a fiscal year ending date of June 30th, along with specific schedules for the adoption of the Tentative Budget, the adoption of the final Adopted Budget, and the setting of tax rates for all counties in Arizona.

The County is required by Statute to adopt a balanced budget each year. A balanced budget has the sum of estimated net revenues and estimated fund balances equal to appropriated expenditures. Once the final Adopted Budget is approved (legally required by the first Monday in August), it may not be increased and State Statutes prohibit expenditures in excess of this budget total. Additionally, actual expenditures may not legally exceed the expenditure appropriations at the level the budget is adopted and must comply with ARS §42-17106. During the year, the Board of Supervisors may make changes to the budget, which can include adjusting appropriation levels between funds or departments, as long as these changes do not increase the Adopted Budget total. Adjustments to the budget are processed by the budget team and are reviewed in accordance with State laws and the County policies.

BASIS OF BUDGETING

Apache County’s basis for budgeting is the same as their basis for accounting. The County prepares its budget on a modified accrual basis of accounting. This governmental basis of accounting means that revenues are recognized when they become both measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Principal and interest on long-term debt are budgeted as expenditures when due, whereas other expenditures are budgeted for as liabilities expected to be incurred during the current period.

BUDGET PROCESS

The County’s Final (or Adopted) Budget authorizes and limits any and all expenditures by County departments, functions and Elected Officials. The Board of Supervisors (BOS) has designated the County Manager to monitor and administer the budget, working through the Finance Department. The Final Budget adopted by the BOS cannot be increased during the fiscal year, except for certain grant-related funds. This requires that budgets be developed at 100% of total estimated sources. Any budget modifications to increase expenditures require BOS approval. Staff or budget increases in personnel services also require BOS approval.

Apache County adopts its budget on a fiscal year basis beginning on July 1 and ending on June 30 of the following year. The County Manager has the responsibility to develop and present a balanced proposed budget annually to the BOS for all County functions and agencies. A balanced budget is defined as a budget where total expenditures do not exceed total revenues. This is accomplished in a two step process consisting of a preliminary budget submitted for approval in June and a final budget submitted in July. By statute, it should be noted the final budget cannot exceed the preliminary budget in total.

MAJOR FUNDS

Major funds can be any Governmental Fund type; they do not include Internal Service or Fiduciary Funds. Major funds are defined as those meeting both of the following criteria:

1. 10% or more of the associated total revenues, expenditures/expenses, assets, or liabilities of:
 - a. All Governmental Funds P1
 - or*
 - b. Enterprise Funds

And

2. 5% or more of revenues, expenditures/expenses, assets, or liabilities of:
 - a. All Governmental Funds
 - and*
 - b. All Enterprise Funds

Apache County does not have any Enterprise Funds. Government officials may elect to report a fund as major if they believe that the public interest is served by the reporting — regardless of the quantitative criteria.

The following funds are considered major funds by Apache County in FY21:

General Fund

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in other funds.

Road Fund

The Road Fund accounts for monies from specific revenue sources that are restricted for road maintenance and operations and for pavement preservation.

Junior College Fund

The college fund accounts for monies from property taxes that the County pays the state for out of County tuition.

NON-MAJOR FUNDS

The total of all other Governmental Funds not considered major funds.

Governmental Funds

Governmental Funds focus on near-term inflows and outflows of spendable resources and the balances of spendable resources available at year-end. These funds are reported using the modified accrual accounting method. This method measures cash and all other financial assets that can readily be converted to cash.

The County reports the following major governmental funds:

The *General Fund* is the County’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Road Fund* accounts for monies from specific revenue sources that are restricted for road maintenance and operations and for pavement preservation.

The *Junior College Fund* accounts for monies from property taxes that the County pays the State for out of County tuition.

Fiduciary Funds

Fiduciary Funds account for assets held in a trustee or agency capacity for others and therefore cannot be used to support the County’s own programs. Fiduciary Funds include the following fund types:

The County reports the following fund types:

The *investment trust funds* account for pooled assets held and invested by the County Treasurer on behalf of other governmental entities.

The *agency funds* account for assets held by the County as an agent for the State and various local governments, and for property taxes collected and distributed to the State, local school districts, community college districts, and special districts.

What is fund balance?

Fund balance is the difference between a fund’s assets and its liabilities. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances, carried forward into the next fiscal year, or reverted back to a granting agency if doing so is contractually stipulated.

Apache County’s reserve policy for the General Fund and Special Revenue Funds is 25%. If the balance falls below 25%, budgets will be cut until the 25% reserve policy is met.

The Apache County Board of Supervisors is required to budget beginning balances within the budgeted expenditures for the year. However, these funds are budgeted as contingency and are not expected to be expended. In fiscal year 2022, Apache County does not anticipate any causes or consequences to fund balances that are anticipated to exceed 10 percent, whether by increase or decrease. The General Fund is expected to have an ending unreserved fund balance within 10 percent of \$5,000,000. The Road Fund is expected to have an ending unreserved fund balance within 10 percent of \$2,500,000.

 = Major Fund

Major funds are defined by the following criteria: 10% or more of the associated total revenues, expenditures/expenses, assets, or liabilities of all governmental funds and 5% or more of revenues, expenditures/expenses, assets, or liabilities of all governmental funds.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects and exclusive or resources held in trust for individuals, private organizations, or other governments.

REVENUE ANALYSIS

Apache County uses a trend analysis to project both revenues and expenditures for the budget. The economic forecast updates are also used to help prepare the budget. Apache County is aware that there are times when unexpected events happen and revenues fall short or expenditures are greater than expected. In order to counter this, the County budgets revenues slightly lower than projected and budgets expenditures slightly higher than projected.

Taxes

The majority of Apache County’s taxes are comprised of property tax. The amount of revenues projected for fiscal year 2022 is based on the tax rate that is levied. In FY2022, Apache County’s maximum allowable primary property tax levy increased by \$111,068. Apache County decreased the primary tax rate by .0091.

Other Taxes

Apache County assesses secondary taxes to fund the Library District, Library Construction Bond, Public Health District, Jail District, Juvenile Jail District, Flood Control District, Fire District Assistance Tax, Jr. College Tuition, and the Post Secondary Education.

Licenses and Permits

Apache County’s licenses and permits consist of Business Licenses, Variance Permits, Building Permits, Flood Plain Review, Subdivision Fees, and Minor Division Fees. The revenues for licenses and permits fluctuate depending on the local economy.

Intergovernmental

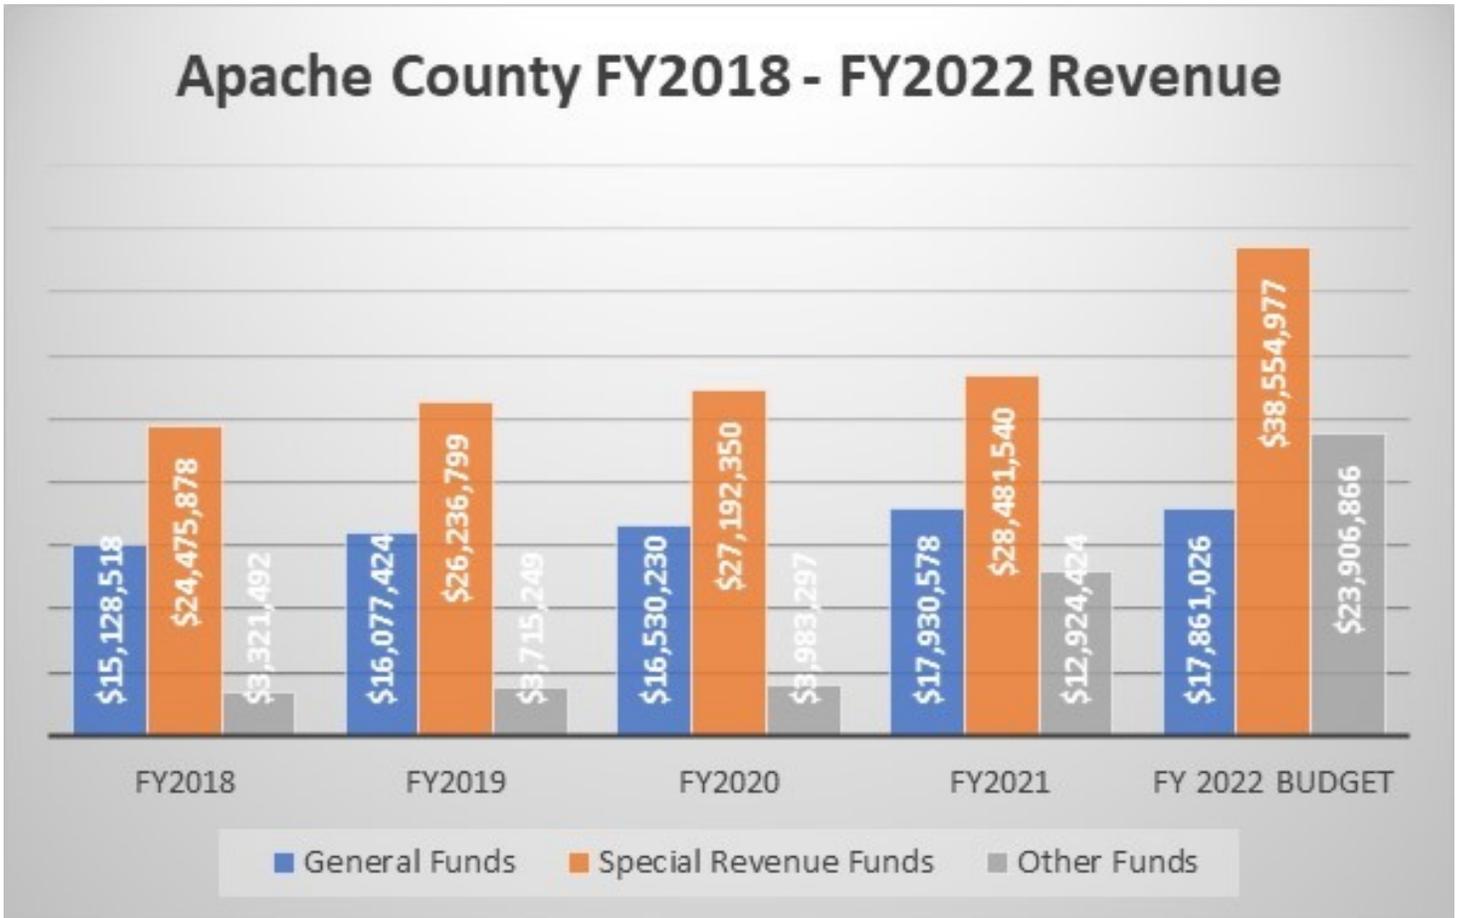

Intergovernmental revenues include Payment in Lieu of Taxes (PILT), State Shared Revenue, County Excise Tax, Charges for Magistrate, Lottery, and State Reimbursement of JP Salaries. State Shared Revenue, County Excise Tax, and PILT are significant sources of revenue to Apache County. PILT is federally funded through the Department of Interior. The PILT program provides payments to counties and other local governments to offset losses in tax revenues due to the presence of tax-exempt federal land in their jurisdictions.

Charges for Services

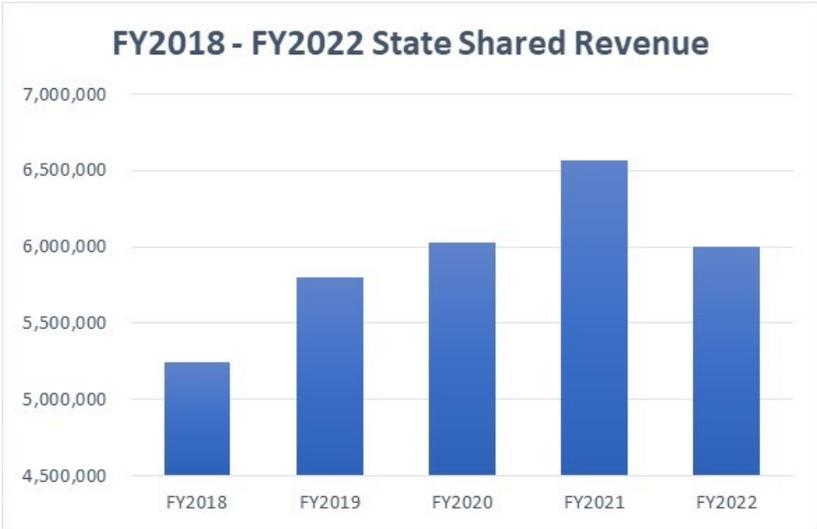

The budgeted charges for services include Recorder fees, Election Charges and charges for other miscellaneous services.

Fines and Forfeits

These revenues are generated from the Justice and Superior Courts collection of fines. Apache County expects little fluctuation in it’s collection of fines and forfeits.

State Shared Revenue is a transaction privilege tax collected at the state level. The State legislature develops a formula in which the money is distributed to cities, towns, and counties. Due to COVID-19, there is an anticipated decline in State Shared Revenue.

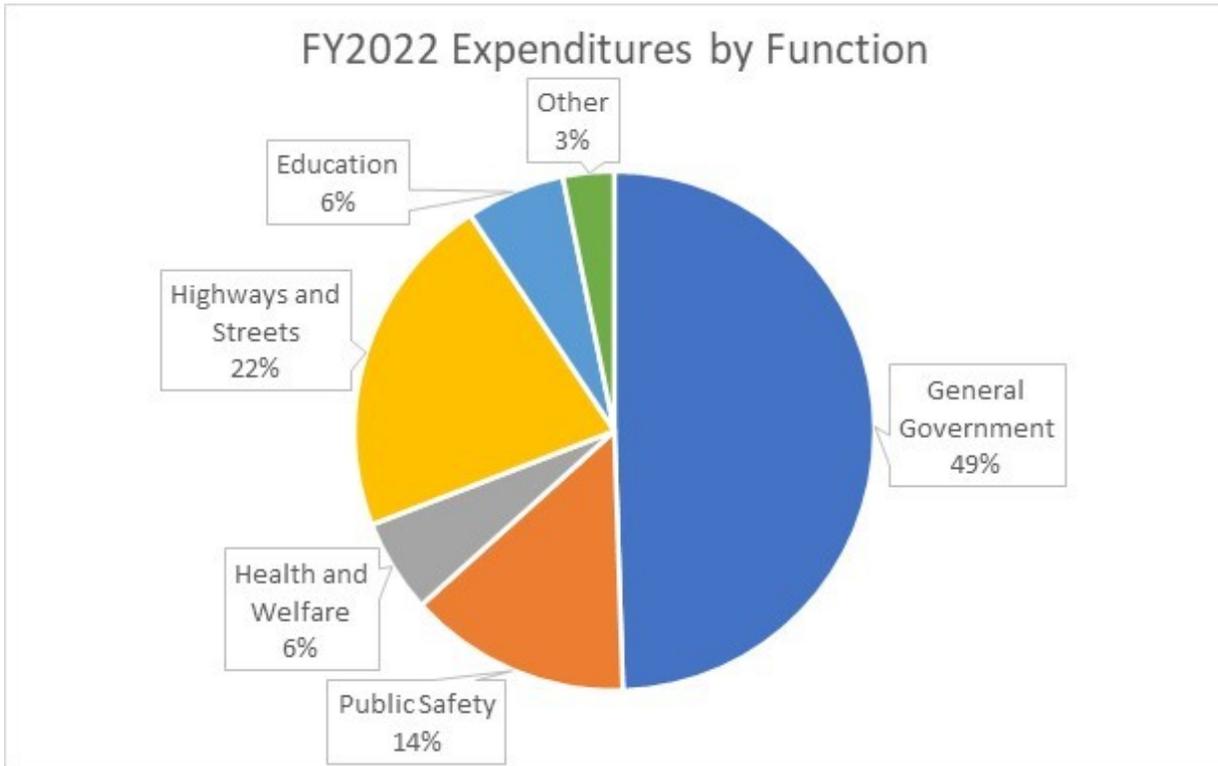

County Excise Tax is a half-cent sales tax charged on most goods sold in Apache County. The revenues produced from this tax are a good indicator of the overall economic condition of the County. Apache County has budgeted this revenue level lower than the previous year.

Vehicle owners in Arizona pay a Vehicle License Tax, assessed in place of a personal property tax charged by other states. Revenues from the Vehicle License Tax are distributed as follows: State Highways 22.72%, County Roads 14.38%, City Roads 13.72%, County General Fund 24.59% and City/Town General Fund 24.59%.

EXPENDITURE ANALYSIS:

Apache County categorizes its expenditures in the following functions: General Government, Public Safety, Health and Welfare, Highways and Streets, Education, Debt Service, Culture and Recreation, and Sanitation. The County’s total budgeted expenditures increased from \$66,739,443 in FY2021 to \$86,737,132 for FY2022, a difference of \$19,997,689. This increase is mainly due to the ARPA funding from the State to help cover costs incurred due to COVID-19.

CAPITAL ASSETS

Capital assets are reported at actual cost. Donated assets are reported at estimated fair value at the time received.

Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation</u>	<u>Estimated</u>
Land	All		
Improvements other than buildings	\$5,000		
Construction in progress	\$5,000		
Buildings	\$5,000	Straight Line	25-40 years
Machinery and equipment	\$5,000	Straight Line	5-8 years
Infrastructure	\$5,000	Straight Line	40-45 years

Capital expenditures are funds used to acquire or maintain fixed assets, such as land, buildings, and equipment. Apache County has no significant nonrecurring capital expenditures budgeted for FY 2022. As such, capital expenditures will have a minimal impact on the operating budget.
