- **3rd Quarter grades go home 3/25**

Note from Mrs. Wheeler!

Greetings Families,

With Spring being right around the corner, that means we are almost to State Testing season. With that, I wanted to remind you all of the importance of attendance, whether distance learning or attending in person, it is important that your students are engaging with their teachers and the curriculum daily. Thank you for all of your constant effort in keeping students involved with their education.

The Science Fair was a huge success, we missed having families onsite but we saw some amazing projects! Great job Bobcats!

We appreciate all of your dedication and hard work with your students education!

Looking forward to warm weather and our softball and baseball season!
